MINE TO BE REOPENED

GOLD REPORTED FOUND NEAR FOREST GROVE.

Claims Are Staked Out Near Head of Carpenter Creek, Five Miles From Town.

FOREST GROVE, Or., June 15.—(Special).—That the stirring days of '49 may be re-enacted in the Forest Grove vicinity became evident today with the announcement that gold in paying quantities had been discovered on the A. Nordgren farm in the foothills five miles west of here, near the head waters of Carpenter creek.

Considerable excitement was created when it was announced that A. Nordgren, W. C. Brown, William E. Clark and Eugene B. Good had uncovered a gold mine slightly worked and abandoned some 40 years ago, that they had taken out specimens of the pay rock, had it assayed and found paying quantities of gold, silver and copper. The men have been working secretly the mine during the past few months, trying out its possibilities, and are fully satisfied they have struck a bonanza.

There is a big ledge of the gold-bearing rock and it is easily accessible for mining, as it is free milling ore, so situated that it can be taken out easily and prepared for refining purposes.

The men have staked out four claims and are preparing to place machinery and work the mine. Should the tungsten develop, as an expert who has examined it said it will, the mine will open up a big asset. Ore has been sent to an assayer for the purpose of determining definitely the tungsten value in the ore. The gold asset is already fully assured.

Mr. Nordgren, the owner of the ranch on which the gold was discovered, is an old-time railroad man and purchased the farm 11 years ago. Mr. Nordgren was in town last night and is enthusiastic over the prospect. He said there is a vast quantity of ore-bearing rock and he felt positive that the developments of the near future will bring great wealth to this community.

HOUSEHOLD PROBLEMS

by Lillian Tingle

ABERDEEN. Wash., April 20.—My dear Miss Tingle: Will you please give me in the columns of The Oregonian: (1) a menu suitable for refreshments for an afternoon bridge party? We usually have salad, sandwiches, coffee and cake, occasionally an ice or something on that order. For refreshments served about 4:30 to 5 it takes a rather light salad, of course, or I have a fruit salad in mind. (2) Will you please give recipes for the salad and sandwiches? There will be 24 guests, and I wish to prepare things ahead of time as far as possible. (3) Also will you please tell me what you consider the best type of lunch napkin for permanent satisfaction for luncheon and afternoon services? Thanking you for the help which your columns through advice to others has so often furnished me.

PATIENCE: Any letter and all letters which reach my desk are given consideration, and yours is either on file awaiting its turn for publication or was lost in the getting there.

The Irish lace can be used in the manner in which the lattice design is shown on the frock shown in the Butterick Quarterly, page 8. No. 8339. I would suggest the French blue voile, upon whose surface the lace will show in pleasing contrast. The white linen will be fetching made as the model pictured in the same issue, page 15, No. 3520. Work in the black or the green.

Kindly see the model of jumper shown on page 21, No. 2413. This of white flannel. The hand work done in the black or plain, should you so fancy. Blues, browns, henna, green, white and black should become you. Will be pleased to be of further help to you.

And we both know perfectly well that you will certainly serve the same ends of the black fringe. The Aleutian islands, west of Alaska, have a population of about 3000.

Thanking you very kindly, I am yours sincerely,
SUBSCRIBER.

An exceedingly smart trim for your jumper will be found in the summer number of the Pictorial Review, page 22, model 8652. The black and white combination is now so in fashion that I would advise the combination, not only for the first named reason, but also for the reason that the black with the white gives a more of a tailored appearance than the scarlet. Have your seamstress trim the black fringe. The robe silk will be found most satisfactory.

Those who go from this county are: Floyd Gouchour, Robert Polson and Crosby Valentine, all of Montesano; Evelyn Compton of the Wishkah valley and Leah Lemmon of Oakville.

Light rains throughout the Haines valley have been of almost daily occurrence. Wheat, oats, rye and barley are said to be making a record growth. According to ranchers living West of Haines in the irrigated district, prospects for an enormous wheat yield are the best in 30 years.

Good-Flapjacks for lunch

Summer—and all outdoors is flipping flapjacks! At least that part of the world that has discovered Albers. Big, fluffy, delicately brown, pipin' hot, there's nothing quite so satisfying to keen, outdoor appetites. They score, at breakfast, lunch, or supper.

Made in a jiffy, Albers Flapjacks bake evenly and quickly over an open fire. You just add water—that's all.
