

HARDING ON FINAL DASH FOR MARION

Last Lap of Long Auto Trip Is Started.

PARTY ON WAY 12 HOURS

President Cheered by Miners as He Passes Through Northern West Virginia and Ohio.

COLUMBUS, July 3.—(By Associated Press.)—President Harding, nearing the end of his overland journey to Marion, Ohio, his home, arrived here shortly before 6 o'clock tonight. The party stopped at a downtown hotel for lunch and planned to proceed to Marion tonight after a brief rest. A delegation of his old friends from Marion met the president here to escort him to his destination.

When he arrived here the president had been on the road almost continuously for 12 hours, during a portion of which inclement weather and bad roads prevailed. The only stop made between Uniontown, Pa., and Columbus was at Wheeling, W. Va., where the party took luncheon at a hotel, immediately resuming the journey.

Large Crowds Greet Chief.

In northern West Virginia and eastern Ohio towns large crowds composed in part of miners made idle by the coal strike, lined the streets. They recognized the president almost instantly and he acknowledged their greetings.

The 45-mile trip from Columbus to Marion was expected to be completed before 11 P. M.

Freshened by a night's rest at a hotel perched on a mountain top near Uniontown, Pa., the president, and Mrs. Harding were up for an early getaway.

MARION, O., July 3.—(By the Associated Press.)—Marion today was carried back to the summer days of 1920 when President Harding's "front porch campaign" was in full swing, for not since that time has there been such an outpouring of people as that which occurred when the town began the celebration of its 100th anniversary.

Many Visitors Attracted.

The impending arrival of the president and his address scheduled for tomorrow afternoon attracted many from surrounding territory determined to remain in Marion for all of the three-day celebration.

While Mr. Harding was a familiar figure here as a private citizen and United States senator, he has never appeared in Marion as president of the United States and the town is determined to make the best of his initial visit since his inauguration. In view of a request that he be allowed to obtain as much rest as possible while here, no formal reception has been arranged for the president and his party, who are expected to arrive tonight.

ENSOR STORM-CENTER

STATUS OF MRS. THOMPSON WILL BE CONSIDERED.

City Attorney Holds Member of Board Does Not Have to Be Resident of Portland.

The status of Mrs. Alexander Thompson, as a member of the board of motion picture censors, again will come up for discussion in city council meeting tomorrow, when a letter protesting against her retention as a member of the board will be considered. The letter, written by a citizen to Mayor Baker, says Mrs. Thompson is ineligible to serve because she does not reside in the city. Mrs. Thompson lives on the Powell valley road outside the city limits.

The letter was referred to Frank S. Grant, city attorney, for an opinion, and this opinion yesterday was submitted to the mayor. It is understood that Mr. Grant holds that under the city charter there was nothing compelling a member of the board of censors to be a Portland resident, but that certain portions might be so interpreted by city council, should it see fit.

Mrs. Thompson long has been a storm center in the board and she has had several clashes with Mayor Baker. At the present time she is serving without appointment, as no appointment was made when her term of office expired January 1. Under the terms of the censorship ordinance, however, a member of the board continues to serve until such time as a successor is appointed.

Mayor Baker last night said that he had not decided what attitude he would take in the matter. "The objection to Mrs. Thompson appears to be a technical one," he said. "Mrs. Thompson has been given good service, and unless the charter she is not entitled to hold office, I see no good reason for removing her. I personally would not remove her, or recommend such action."

P. Hetherton, for three years executive secretary of the Portland Chamber of Commerce, has submitted his resignation, to become effective August 1. Mr. Hetherton for some time has considered resigning and going into other work.

The department of which Mr. Crawford is the head will undoubtedly be consolidated with the central office and the old staff will be materially reduced. It is contemplated to reduce the clerical and executive staff of the chamber approximately 10 per cent.

PATTON BROTHERS ARE BIG SUCCESS

Portland Trio of Artists Is Chautauqua Feature.

BOYS WARMLY GREETED

Special Patriotic Programme to Be Fourth of July Leader at Gladstone Assembly.

OREGON CITY, Or., July 3.—(Special.)—Lowell Patton, pianist, was welcomed back to Chautauqua by the best audience thus far this season at the big Gladstone assembly, and the popularity of this Portland boy was in no way diminished by the co-appearance of his brothers, Donald and Gault, who are singers of fine ability.

There were those in the big auditorium this afternoon and tonight who knew Lowell Patton and his ability with the piano, and who awaited with some misgivings the result of his work with his two brothers, none thinking that three such high-class artists could be produced in one family.

The programme, segregated into episodes and carrying the audience through a variety of musical memories, distributed credit equally between the three Portlanders—a pianist, Lowell, is every bit as good as his many friends anticipated, and as a vocalist he showed a new side to his artistry that was anything but displeasing.

The entertainment put on by the boys comprises bits of opera, the classic, old-time melodies, songs from "over the top" and jazzy numbers, interspersed with piano-logues by Lowell, characteristic readings and steps by the other two. Costumes portraying the characters, and the periods covered by the songs and stories add a pleasing touch to the scenes.

The act was worked out this season has never been seen in Portland, and the selection of numbers shows careful consideration. Special music has been secured for some of the numbers and a feature of the entire performance is the introductory work of Lowell Patton, done in pianologist style, and carrying a fund of humor and catchy phrases.

An interesting announcement, made by Lowell Patton to some of his friends after the performance in the afternoon, conveyed the information that early in the spring of next year he will tour Europe. The reception accorded the brothers after each performance shows the great esteem in which they are held, and from this community especially they draw so many personal friends that their back-stage quarters are always crowded.

Hot weather at the Chautauqua is not so troublesome as at places not so fortunately shaded, but the great trees and the profusion of gentle breezes serve to cool the huge throngs attending.

Lecture is interesting feature. Following the Patton brothers' act last evening, a lecture on co-operation between the nations was presented by Norman Allen Imbrie, professor of modern history at Culver military academy. In the afternoon the symposium hour was devoted to a discussion of the tobacco and liquor evils, under the auspices of the state Women's Christian Temperance Union. A feature of the symposium hours each day is the appearance of the famous Junior orchestra, an organization of 23 pieces played by young folk who show the result of careful musical training.

The Fourth of July programme at the Chautauqua tomorrow should make a big appeal to many extra thousands of work-free persons from the cities and country. The morning and afternoon numbers contain musical features, with Opie Read, internationally known humorist and lecturer, appearing in the evening. A fireworks display will be seen beginning at 9 o'clock. The complete programme follows:

8 to 11—Physical culture classes and children's Chautauqua.

10 to 11—Bible hour. Rev. B. Earl Parser, D. D.

11—Forum hour, in charge of local American Legion post; address, Chaplain Gilbert.

Afternoon.

1:30—Popular concert. Oceanic quintet, with a record of continuous success on three continents, under five flags.

2:30—Home demonstrations by extension department of O. A. C.

4—Baseball, Carus vs. Molalla.

5—Symposium, patriotic songs and addresses, noted speakers.

Evening.

7:30—Concert prelude, Oceanic quintet; lecture, "Human Nature," Opie Read. An hour with America's brilliant philosopher.

9:00—Great fireworks display.

Boys Get Cordial Welcome.

A feature of the Patton entertainment Saturday afternoon and evening was the wonderful reception accorded the boys by their many friends after the performances. They have been out four with the Killison-White circuits since April, and many of their Portland friends were out to hear them. The boys are the sons of Mr. and Mrs. E. L. Patton, members of a prominent pioneer family of Portland, and it was at the Gladstone Chautauqua many years ago that the urge of the public platform tugged at young Lowell's breast, and it is with extra vigor that he stages his performances here.
