

MARRIAGES FAIL

Large Percentage Ends in Divorce Court Here.

TEN SUITS ARE FILED

Of Total, Four Are by Persons Who Crossed to Gretna Green for Weddings.

Superstitious persons who take stock in "lucky wedding rings," stumbling over the doorstep of the new home of a bridal couple, etc., had better give Vancouver, Wash., a wide berth when intent on committing matrimony.

This advice is based on the fact that an extraordinary heavy percentage of the divorce cases filed in Multnomah county courts are of couples who fled from Portland to the Gretna Green across the Columbia for consummation of the marital ties.

A glance at divorce filings in the office of County Clerk Beveridge any day will reveal the truth of this assertion.

Four divorce suits filed. Of this number four were filed by persons who were married in Vancouver, three by persons married in Portland, and three by people married many miles from the city.

These Vancouver divorces were filed in the office of County Clerk Beveridge any day will reveal the truth of this assertion.

These Portland divorces were filed in the office of County Clerk Beveridge any day will reveal the truth of this assertion.

These many miles from the city divorces were filed in the office of County Clerk Beveridge any day will reveal the truth of this assertion.

Moving Picture News

TODAY'S FILM FEATURES. Columbia—"Pilgrims of the Night."

Majestic—Oliver Morosoff's "The American First National." Rivoli—Herbert Rawlinson, "The Black Bag."

Liberty—"All-star cast, 'I Am a Woman.'" "Nanook of the North." Hippodrome—William Farnum, "Shackles of Gold."

Cleopatra—William Russell, "A Self-made Man."

With all its so-called faults, the American motion picture continues to rule the world and its dominance is growing steadily firmer.

Among the high lights of its findings are: Through special agents in England, continental countries, the orient, Near East, Australia and the United States, National courts, one of the most searching inquiries into the film market abroad that has been made since the war.

The demand for American-made screen subjects is increasing. It is estimated that more than 100,000 copies of American films are sold in the health of the world's film market.

Mexico has declared war on film firms handling photoplays that hold its people up to ridicule or tend to brand them as a nation of outlaws.

Europe's "The Crossroads of the World" has better do the promised big business for him next week at the Liberty—there will be more copious tears.

Herbert Rawlinson is said to be at his best in the photoplay version of "The American First National."

Priscilla Dean will require a short time for her burned hands to heal before starting "Trimmed in Scotland."

The new work will entail an expense of more than \$100,000 and will be finished in time to store this season's water.

Filling Station on Campus. PACIFIC UNIVERSITY, Forest Grove, Or., July 20.—(Special.)—One corner of the college campus was leased this week to the Standard Oil company for a campus filling station.

The site faces the Loop and Roosevelt highways and occupies about one-fifth of an acre of the campus. A portion reaching back nearly to the college library will be used for lawns and landscape gardening.

Glenn D. Sheely, a member of the faculty, is in charge of the station, which is now in operation, although in the process of construction.

Contract for School Lot. PORT ORFORD, Or., July 20.—(Special.)—A contract has been let by the school board at Langlois for the construction of a new school building, the bid of \$22,900, by Fred Hofstad, of Portland, was accepted.

The school board has purchased eight acres south of town for building site and playgrounds. The building will be completed about October 1.

Automobile Theft Alarm. HONOLULU, T. H., July 20.—(Special.)—The alarming increase in the number of automobiles stolen

Close to 4000 Tourists Visit Local Auto Camp. Three Hundred Cars a Day Drop In to See Sights of City and Occupants Express Satisfaction at Treatment Received.

BY ADDISON BENNETT. THE Chamber of Commerce has had a representative at the grounds since the season opened and it is surely doing a good work.

All parties asking the superintendent for advice as to roads, etc., are sent to the resthouse where the chamber has a desk and attendant who is well supplied with road maps and other literature useful to tourists.

The resthouse has been the season's first representative of the chamber since David L. Stearns, who has been on his vacation and is just returning. During his absence, Mr. V. Andrews, in charge of the chamber, was at the camp all of last season and was a splendid man for the job, being courteous and knowing about everything the campers wish to know.

One hundred and ten machines arrived at the camp in the season's same number left on that day. The travel is about at its height, the number of cars on the grounds averaging about 350. Thus far this season the number of machines arriving is close to 4000, which number will be passed Thursday night.

One of the finest boosters for Portland and the camp is Charles J. Earl, who is accompanied by another booster, Mrs. Earl. They are found in the praise of everything pertaining to the city or the camp. They reside, or have resided, at New York city, where Mr. Earl was in the real estate business and Mrs. Earl is in the Remington company. He still owns his home near New York and is now on his way to close his real estate business and is well fixed on San Diego, Cal., but has now changed it and will undoubtedly become a citizen of Portland.

Mr. Earl is a refreshing and interesting member of the "kicker" family to hear Mr. Earl's reports of the camp. In their trip of last year they have traveled in a mighty lucky way. They will hear from them next as residents of Portland.

Two electricians, Fred R. Mills and John C. McCulloch, are from Big Creek, Cal., and they travel in a Ford bus. They expect to case their anchor at Portland.

"Going to start a new home in San Francisco" is about the limit of the conversation from Mr. and Mrs. E. F. McCall, who are on their way from their old home at Butte, Mont.

Peter Brovik is a salesman who, with his wife, is going to Los Angeles to reside. They are from Minneapolis, Minn.

"Portland is the best part of the United States" is the way A. D. Augustus of Walla Walla puts it. He was in the lumber business and sold out. Portland may expect him from the famous city of Bend, Or.

"We have with us today" Bert Shuey and wife, who are from Seattle, Jr., age 11, and Lucile, age 10. Mr. Shuey was a Bend grocer, but too much prosperity soured him, so he sold out his business and is looking around Portland for a well-established grocery or a chance to start a new business. But he also has an eye on Everett, Wash.

YOUTH SEES SIGHTS OF MOTHER'S OLD HOME.

Heir to Millions is Shielded From Newspaper Publicity in San Francisco.

SAN FRANCISCO, July 20.—(Special.)—Guarded like a young prince, from all contact with a rude, cold world, William Kissam Vanderbilt III, only son of Mr. and Mrs. William Kissam Vanderbilt Jr., slipped quietly and unaccompanied to San Francisco Wednesday morning and spent the day seeing the sights of his mother's old home.

Members of the Divorcees' Orchestra band have been invited by Al. Raleigh, manager of the Columbia theater, to be his guests at a performance of "Pilgrims of the Night" at the Columbia today.

The youngsters have been blowing themselves blue in the face and playing on street corners and in parks. Parents and individual facts have been cordial to the young visitors. And it is fine that Raleigh so promptly fell into line.

There is a scandal at the Liberty! Absolutely! C. S. Jensen merrily rolled up to the theater recently in a shiny new Packard touring car. And he maliciously parked it, directly in front of the Liberty's entrance. It was too much for Paul, whose middle name is Emerson. He went, copious tears all over the place. Paul's car was a 1921 model. Then his returns registered determination, and he "dashed madly" up to his office to consult his book. He put on an awful face. In it but now he is smilingly preparing for rain for he has a "nifty creation" in a Kissel De Luxe Sport coupe.

Scout's "The Crossroads of the World" had better do the promised big business for him next week at the Liberty—there will be more copious tears.

Herbert Rawlinson is said to be at his best in the photoplay version of "The American First National."

Priscilla Dean will require a short time for her burned hands to heal before starting "Trimmed in Scotland."

The new work will entail an expense of more than \$100,000 and will be finished in time to store this season's water.

But he also has an eye on Everett, Wash.

LEBANON MAN BREAKS DOG RECORD.

Albert Wilson of Lebanon set a new record in Lin county when he paid to the county clerk \$26 in license for 15 dogs, says the Albany Democrat.

Wilson paid \$2 for each of 10 males and \$2 each for eight females. He conducts kennels at Lebanon and has some of the finest dogs in the United States. Only this week he is said to have sold two of the animals for \$400, so his license fee will not make a large hole in his bank account.

Label Salt Withdrawn. In the latest issue of the Silver Lake Leader and Lake County Tribune is a statement by the editor acknowledging that he was misled by an article published in the paper which reflected on some of his official acts. Mr. Ward appears to have been satisfied with this acknowledgment and the Tribune editor has been brought against the editor has been withdrawn.

Engine Sparks Burn Flame. Sparks from the engine of a passenger O. W. R. train started a fire in the dry grass along the right of way, which quickly spread to a field on the J. P. McCall tract just south of Hermiston, Umatilla county, setting fire to the irrigation flume. Between 600 and 800 feet of flume was destroyed. —Hermiston Herald.

Railroad Fighting Weeds. The Enterprise, Or. Record-Chief Clerk, says "The railroad has its weed burner at work on the branch on its annual assignment. Fighting the weeds is a heavy expense to the railroad, as the company has to employ a crew of men to do the work on each side.

Clear Lake Yields Many Fish Stories. Eastern Tourist, Seeing Old-Timer's Catch, Begs to Be Taken to Spot.

Clear lake gathers greater glory as a fishing resort every day. Now comes the story of Mark Busard, who, after spending a couple of days there, passed through the lake in an Albany, Or., with the intent of catching a trout. He caught him, without hesitating, stopped Busard and offered to pay all expenses and do anything else if Busard would only take him to the place where he had made the catch.

Busard was at the lake two days, and reports that the first day he started fishing at 9 o'clock and had to stop at 11 o'clock because of having the limit. He caught the limit again the second day and came home. It was on his way that the tourist had an idea of having the limit. He caught the limit again the second day and came home. It was on his way that the tourist had an idea of having the limit.

Widow Files Appeal. OLYMPIA, Wash., July 20.—(Special.)—Mrs. Mattie Brooks, widow of James Brooks, who was shot and killed by James Fitzpatrick at the Simpson Logging company's camp near the town of Olympia, has filed her appeal in superior court from the decision of the industrial insurance division, denying her claim for industrial insurance.

Trout to Be Planted. KELSO, Wash., July 20.—(Special.)—Cowlitz county has been assigned 108,000 rainbow trout fry from the state hatchery at Chambers creek near South Tacoma and county Game Warden Oyster has been given the past two ways placing these trout in some of the Cowlitz county streams. On this basis the Kalama, Goble creek, Speier creek and Arkansas creek are among the streams that have been favored with fish.

Fatal Case of Rabies Reported. The Lake County Examiner reported a case of rabies in the death of Homer County resident just across the Nevada line near High Rock. This is the story: A man aged 40 years, who had a dog, was bitten on the hand by a calf that was acting in a strange manner, and the calf was killed. The man was taken to the hospital and died. The dog was killed. The calf was killed. The man was taken to the hospital and died. The dog was killed. The calf was killed.

Dawn of New Era Seen. The dawn of a new era was heralded in the Silver Lake valley when water was turned onto the thousands of acres of rich land a few weeks ago. A representative of the Lakeview Examiner visited that valley and reported that the water is excellent for good crops. Without the water it is doubtful in many places that the crops would have been worth harvesting.

Medford Merchants Aid Fair. Medford merchants will build an industrial pavilion for this year's Jackson county fair. The building will be 60 feet wide and 122 feet long. It will contain 40 booths, each having a frontage of 12 feet and a depth of ten feet. The building will be substantially constructed on cement foundations and the floor will be of cement. It will be of an architectural design and painted to harmonize with the other buildings constructed on the grounds.

Cotton Mill at Pens Planned. Establishment of cotton mill at the penitentiary in the near future is the aim of Warden Pace. Should such a mill be established it will be the first of its kind along the Mississippi river and north of Los Angeles, says the Walla Walla Bulletin. Approximately 250 inmates of the penitentiary will be given employment in the mill according to estimates of Mr. Pace. Failure of the Jute mill was attributed by Mr. Pace to the fact that the home of the jute industry is in Calcutta, where wages are around \$2 a week. Farmers insist upon practically no tariff on the bags, which makes it impossible to sell India bags at less than they can be made here.

Grasshopper Campaign Planned. A grasshopper campaign by which it is hoped the pest may be put under control will be waged by farm-

MEETING NOTICES.
