ALIEN SMUGGLING SERIOUS PROBLEM

Secretary Davis Asks Cooperation of Cuba.

CHINESE MOST ACTIVE

Labor Department Head Addresses Letter to Mr. Hughes Requesting Help.

WASHINGTON, D. C., Aug. 21 .-(By the Associated Press.)-Smuggling of allens into the United States, particularly Chinese from Cuba, constitutes one of the most serious problems before the department of labor. Secretary of Davis declared today in commenting upon the ef-forts being made to obtain closer co-operation between the Cuban government and the United States.

The secretary was hopeful, he said, that negotiations between the state department and Cuba would tend to remove some of the obstacles confronted by the immigration au-thorities of the labor department in dealing with smuggling operations.

No Reply Received. It developed today that negotia-tions began in October last, when Secretary Hughes asked the Cuban legation here to call certain fea-tures of the situation to the atten-tion of officials in Havana. Since then the legation has sent several other inquiries to its home govern-ment, but has received no formal reply to the American representa-

tions.

The latest phase of the problem is understood to have resulted from a letter written to Secretary Hughes by Secretary Davis on August 3 stating that the labor department "has deemed it proper as well as advisable to present this matter (smuggling of Chinese from Cuba into the United States) for the consideration of your department with the request that if you approve of that course the American minister at Havana, or other proper representatives of this government, make appropriate representations to representatives of this government, make appropriate representations to the government of Cuba with the object in view of ascertaining if restrictions of a character which will serve materially to check the movement to that country of allens of the Chinese race may not be imposed under the laws of that country.

Cuban Aid Suggested. Cuban Aid Suggested.

Mr. Davis also suggested that the Cuban government may be able to devise some plan whereby the departure from ports of Cuba of craft engaged in the smuggling of aliens to our coast and who are not, or may not, materially be checked. He said his department was "very gravely concerned over the situation which now prevails on our southern which now prevails on our southern Atlantic and gulf coasts growing out of smuggling over from Cuba of alens in large numbers," and explained that "it seems to be the generally accepted view of persons in touch with the situation that virtually the entire present Chinese propolation of Cobin (event of virtually the entire present Chinese population of Cuba (except, of course, those who are engaged in business here) have the one thought uppermost in mind of gaining entry to the United States, which entry must necessarily be accomplished by unlawful means."
