515 Selling building, has returned.—Adv.

NEARLY 8000 AUTOS HAVE VISITED CITY THIS SEASON

Number Expected to Be Increased to 10,000 by Time Tourist Weather Ends Year of Record Travel.

BY ADDISON BENNETT.

THERE is a steady stream of about 100 cars a day coming into and leaving the camp, the total arrivals of yesterday being 196. The gross number for the year will soon reach 8000, and if the good weather holds on a few weeks longer the number for the year will be about 10,000. A good estimate is three and one-third passengers to the machine, which would mean 33,333 for the year.

A pronounced highway loafer is Charles E. Ebersol, and his wife is a good second. For three years now they have taken almost a year's holiday in their auto. They really real home is in their auto, but they have dwelled in Lansing, Mich., where they rest up from the last trip and prepare for the trip coming. Three years ago they took in New England, the Carolinas, North Carolina, and through York state and Pennsylvania and Jersey. Last year they went south, Florida, the Carolinas, Georgia and thence through Mississippi, Kentucky, Tennessee, Ohio West Virginia. Both of these trips carried more than 5000 miles, and this trip, of 1922, already passes that mark by more than 500 miles. But greater distances are made in the auto. From here they will gradually get down to lower California, into Mexico, and then through Texas, the only state in the union they have not inspected. In the east and much of the south they say there are no auto camps. You just run your machine into a door yard or pull up by the roadside. They will get back to Lansing toward spring, in time to get ready for the 1923 tour. When at home Mr. Ebersol is president of the National Business University.

Waving high the Round-up banner came H. C. Craig and wife, a Pendleton grain dealer. They left home June 15, and have visited the principal resorts in southern Oregon and went north to Seattle, Severt, Tacoma and Olympia. From here they will go home.

From "The valley of perennial sunshine," as the Kanawha section of West Virginia was extolled by "Perennial Smith," when booting that place for the West Virginia capital, arrived at our grounds an electric supply man, O. C. Carr, and his wife, and he had quite a visit, as Mr. Carr knows a lot of people.

DRUGGIST FINED \$50.—Alfred H. Brown, owner of drug stores at 120 and 229 Lombard street, pleaded guilty to a technical charge of making a false report on his stock of alcohol in the federal court yesterday. Evidence showed that a transfer of the stock from one store to the other after a report had been made led to the charge of law violation. He had underestimated the stock in one store and overestimated that in another. A fine of \$50 was imposed.

LOGGING BUILDING TAKES SHAPE.—Construction work on the new \$25,000 home of the Kenton Masonic lodge is progressing rapidly and the building is expected to be occupied early this fall. The side walls of the new structure are practically completed and the interior finishing and the roofing is about all that remains to be done. The building will add an attractive note to the general appearance of the logging section of Kenton when completed.

LIBRARY GROUNDS IMPROVED.—The area near the newly-completed library building in University park, Multnomah county, is being contemplated and the installation of a fine new bronze drinking fountain for public use was completed there this week. The fountain is the gift of the Harlequin club, an organization of young people in the community.

EXCAVATION IS COMPLETED.—Excavation work preparatory to construction of a new one-story store building on the corner of Broadway and Larrabee street has been completed and the construction of the building will start immediately. The new structure is being built for J. A. Peterson at a cost of \$9000. It will be 18x100 feet. Clausen & Clausen are the architects and John Altmeyer is the contractor.

STORY HOURS ATTRACTIVE.—Story hours for the children of Arleta district held in the Mount Scott playground and in the Arleta branch library are proving unusually attractive, and 54 children attended the regular hours are held each week on Saturdays afternoon at 2 o'clock at the Mount Scott playground during the warm weather.

BANKRUPTCY PETITION FILED.—The First State & Savings bank of Klamath Falls is the heaviest creditor of Charles H. Johnson, Klamath Falls auto dealer, according to a petition in bankruptcy filed in the federal court yesterday. Johnson listed his assets at \$200 and his debts at \$16,000, his principal creditors being the bank, which holds \$15,000, and the Frank and Rubber company of San Francisco, which he owes \$5000.

CHILDREN'S LIBRARIAN IS NAMED.—Miss Johanna Dressel of San Francisco has been appointed children's librarian at the Arleta branch library to succeed Miss Rice, the present incumbent, who expects to leave soon for her home in Bartlesville, Okla. Miss Dressel has just arrived and will assume her new duties at once. She is a graduate of the Carnegie library school of Pittsburgh, Pa.

TRIP TO ASTORIA PLANNED.—Members of the Portland Chamber of Commerce in numbering approximately 250 will pay their respects to Astoria tomorrow. They will leave Portland at 7 o'clock on the steamer Georgia and will arrive at Astoria at 11 A. M. There they will be entertained by the business men of the city for a period of four hours and then will return to Portland.

CHURCH UNDERGOES REPAIRS.—Extensive repairs are being made on the Anabel Presbyterian church, 215 First street, and the thirty-seventh avenue Southeast, which will include the retinting of the interior and numerous changes in the appearance of the structure. The work is being rushed to early completion.

ESTATE VALUED \$22,000 LEFT.—An estate valued at \$22,000 was left by the late Gust Swanson in Multnomah county, according to a petition for letters of administration filed in the circuit court yesterday by a brother, P. A. Hedstrom, aged 70, of Alta, Ill.

THE PUBLIC LIBRARY can use single copies or bound volumes of St. Nicholas and Popular Mechanics. If you wish to contribute your old numbers, call Main 1124.—Adv.

Successful Men Are Made--Not Born!

They never said: "I never had a chance." Instead, they created their own opportunities. You can do the same! This school makes every inducement to any young man to prepare himself for his life's work.

Successful Men Are Made--Not Born!

Two buccaroos from Emmett, Idaho, are on the grounds. John Schultz and Dave Hallie. They are in the employ of a big cattle company and are waiting in Portland, eagerly waiting for the big circus which comes here in a day or two. They were at Newport when the "beard of the circus" and it is now "curious or bust" with them. They expect to go both afternoon and night. They ought to stop at Pendleton for the Round-up.

A rural mail carrier, R. D. Bollinger, accompanied by his wife, is camped on the grounds. They are from Oakland, Cal., which place they left August 17. They stopped at Eugene to visit friends, now going up the highway, then to Seattle, and from there straight home.

From Seattle came Edward Cole, accompanied by his wife and two young women, the Misses Elizabeth Wirtz and Sally Kennedy. Mr. Cole is a salesman for the Puget Sound Light & Power company. They have been to Seaside and Tillamook, and will now go up the highway and home via Walla Walla and Yakima valley.

Also from Seattle came Martin Sorrenson and wife with their two children, Elizabeth, aged 8, and Martin Jr., 4. Mr. S. is a carpenter, and works at making automobile bodies. He is out on a short trip about 10 days, and will also go home via the Yakima valley.

Prince George, Altamont, B. C., sends us a raw fur dealer, E. H. Livingston, who is accompanied by his wife. Their home is 500 miles due north of Vancouver, B. C., in a real fur country. They will motor south to San Francisco from here, and then home, for the fur season opens about October 15, and he wishes to be in at the opening.

Given through consent of this council, explained Mayor Baker. The bill was paid without further discussion.

BLAME LAID WRONGLY

ELECTION BOARDS ARE NOT NAMED BY BEVERIDGE.

Authority Is Placed by County Commissioners in Special Superintendent.

If any blame should possibly attach to the selection of election officials in certain precincts within Multnomah county, as the outcome of the grand jury investigations, etc.—it does not lie at the door of Joseph W. Beveridge, county clerk, declared this official yesterday.

"I have been a target for considerable censure already," he said, "and I do not deserve it. I had nothing whatever to do with the appointment of persons to election boards this year, all such authority having been taken out of my hands by the county commissioners. They appointed Mrs. George G. Blair, a very estimable woman, superintendent of elections at a salary of \$125 a month, and stated in a resolution adopted that it was to be strictly understood that she is to receive her instructions from and be accountable to the board of county commissioners."

PINE VALLEY THRIVING

Plenty of Water for Irrigation Makes Crops Excellent.

HALFWAY, Or., Aug. 23.—(Special.)—With one of the hottest and driest seasons on record, Pine valley had plenty of water for irrigation, and it is said by all visitors to be one of the greenest spots in Oregon. Tourists never fail to remark about the freshness of the fields and meadows.

The first crop of hay was heavy. The second crop, now in the cutting, is lighter. The new crop is setting in a few small sales, at \$7 to \$8 a ton. What is being cut and threatening will begin soon. On Multnomah county, the crop is good, but on the dry farms it is very light. Grasshoppers are doing slight damage in places.

Ham Prices Are Down

Ham—Boiled, Baked (Hot or Cold), Broiled or Fried—is one of the most appetizing and savory foods that the market offers.

The wholesale price of ham is fifteen to twenty per cent lower than it was six weeks ago.

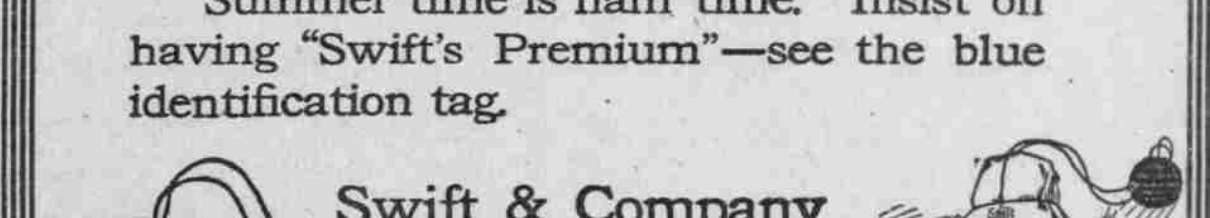

The U. S. Dept. of Agriculture in an announcement dated June 19, 1922, in referring to vitamins found in meat said, "Various cuts of meat were tried, and in every instance pork was found to be relatively rich in vitamins. Pork tenderloin, fresh ham, smoked ham, and pressed boiled ham were tested and the results were much the same with all of them."

Swift's Premium Hams are always of a uniform high standard of quality, regardless of price. A special cure of sugar and salt, and smoking over hardwood fires impart a flavor that has made "Premium" Ham the world's standard.

Summer time is ham time. Insist on having "Swift's Premium"—see the blue identification tag.
