Problems of Dressmaking

by Madam Richet

PORTLAND, Or., Aug. 31.—Dear Madam Richet: I have enclosed a sample and a sketch of a suit that I would like to make into a dress. I think it will prove to be combined with something for the coat is quite pleased. The length of the coat is 32 inches. The skirt, in length is 32 inches and in width at bottom measures 54 inches and has silk pockets. I have also sent a sketch of a jacket of Jersey wool that is dark green. Please tell me what would combine with it to make a skirt and sleeves. I want to embroider the jacket.

I am 20 years old, weigh about 112 pounds, 5 feet 1 inch tall. I am dark complexioned, have dark hair and brown eyes.

Thanking you very, very much for anything you will suggest, I am yours truly,

MRS. A. S.—With the suggestion of the panel back you are given an excellent reason for the

SEASONABLE BEAUTY HINT

Hair is by far the most conspicuous thing about us and is probably the most easily damaged by bad or careless treatment. If we are very careful in hair washing, we will have virtually no hair troubles. An especially fine shampoo for this weather, one that brings out all the natural beauty of the hair, that dissolves and entirely removes all dandruff, excess oil and dirt, can easily be used at trifling expense by simply dissolving a teaspoonful of canthrox (which you can get at any drugist's), in a cup of hot water. This makes a full cup of shampoo. This makes a full cup of shampoo. This makes a full cup of shampoo. This makes a full cup of shampoo.

Things You'll Love to Make

Release Sept. 21.

For your green jersey I would suggest a sleeve and skirt of the materials which have the green, gray and deep red mixtures. The type would demand a strictly sport-like treatment and so on the sleeve I would have the wrist band of the plain green, upon which place a half-inch strap of the net material and hold together with a small gimp buckle. The girle I would treat in the same way and the collar of the green with the inch strap of the mixed fabric, ending at the front with a buckle which really does connect the strip, would be a very attractive feature. Wear your skirt not more than six inches from the floor line. The "dress-up" gowns are three and four inches from the floor.

Mrs. Ethel M. Johnson, Beaverton, Or.—I have put your letter aside and will await the sending of the sample which you omitted. Kindly write on one side only, when addressing this department.

MOTHERS AND DAUGHTERS

Read This Letter from Mrs. W. S. Hughes

Greenville, Del.—"I was under the impression that my eldest daughter had some inter-nal trouble as ever since the first time her sickness appeared she had to go to bed and even had to quit school once for a week. I always take Lydia E. Pinkham's Vegetable Compound myself so I gave it to her and she has received great benefit from it. You can use this letter for a testimonial if you wish, as I cannot say too much about what your medicine has done for me and for my daughter." Mrs. Wm. S. Hughes, Greenville, Del.

Mothers and oftentimes grandmothers have taken and have learned the value of Lydia E. Pinkham's Vegetable Compound. So they recommend the medicine to others. The best test of any medicine is what it has done for others. For nearly fifty years we have published letters from mothers, daughters, and women, young and old, recommending the Vegetable Compound. They know what it did for them and are glad to tell others. In your own neighborhood are women who know of its great value.

Mothers—daughters, why not try it?
