Upon the results of these primaries republican party leaders are
basing unusual optimism and believe they indicate beyond any
doubt that the Harding administration is to be indursed at the polls

tion is to be indursed at the polls and that both houses of congress will retain comfortable republican working majorities after March 6

next.

John T. Adams, chairman of the republican national committee, after an analysis of returns as affecting the present personnel of congress, said tonight:

"The results clearly show that
the rank and file of the republican
party are satisfied with the work
and personnel of the republican majority in the present congress.

Only 14 of 259 Beaten.

The present republican member-whip of the house is 298. Of these ESP entered the primaries in their respective districts for renomina-tion. Only 14 out of this number, republican leaders point out, were defeated. This is less than 6 per cent of the total number who, by cent of the total number who, by ontering the primaries, asked for an indorsement of their record. It may be stated that where incumbents were defeated, the causes which contributed to their defeat were local. Illinois contributed two to the list of republican representatives in congress defeated for renomination, Kansas one, Missouri one, New Jersey two, New Mexica the New York one Oklahoma one, Pennsylvania four and Wisconsin five.

OLD FRIENDS TO SETTLE TROUBLE IN COURT.

Case of W. A. White, Emporla Editor, May Determine Legality of Free Speech.

EMPORIA, Kan. Oct. 1.—The final scene in the latest episode of "Henry and Me" is scheduled to be staged in the district court here at the term opening October 3. This will pertain dulte definitely to a "legal adventure" rather than one of a martial nature as was the original

"legal adventure" rather than one of a martial nature as was the original, a book written by William Allen White. Emporia editor and author, concerning the experiences of his lifeiong friend, Governor H. J. Allen of Kansas, and himself, in Red Cross service overseas during the world war. In the coming "adventure" Mr. White will be defendant on a charge of violation of the Kansas industrial court act, sponsored by Governor Allen because Mr. White hung in the window of his newspaper office a placard expressing sympathy for the striking railroad shop workers.

If the case comes to trial the issue of "free speech" involved may be legally determined, Mr. White contended that the order directing him and others to remove the strike-sympathy placards was a violation of the privileges of free speech. Governor Allen has stated repeatedly that the question of free speech is not involved—that the display of the signs constituted joining a conspiracy for prevent men taking the places of the striking shopmen. The Kansas industrial court law prohibits conspiracies designed to interfere with the operation of any industry necessary to public welfare.

Mr. White refused to remove the placard when ordered to do so by Attorney-General Hopkins, but, following issuance of the state warrant and his technical arraignment in the

DO YOU know any other pen on earth you can pass from hand to hand and have it hold its original point? Most people are loath to lend their fountain pens because the other man's style of writing is apt to turn the point,

Not so with the new Parker Duofold in Chinese-red, with smart black-tipped ends - the Over-size pen that holds nearly twice as much ink as the ordinary pen and resembles fine lacquer.

"Handsomer than gold," you'll be spt to exclaim when you first lay eyes on it.

Go and see this classic of fountain pens. Take one away for 30 Days' Free Trial to test its native Iridium point, as smooth and life-enduring as a hard jewel bearing.

It took Geo. S. Parker 30 years of infinite pains to perfect this super-pen; but it's taken only about six months for imitations to appear. Don't let other red pens deceive you. It takes more than red rubber to make a 25-year point. Look for the stamping, "Duofold — Perker Lucky Curve," on the barrel. No other is genuine. Don't go without it.

Write us, giving your dealer's name if you don't find the Duofold near-by.

Twenty bags a year

but only a limited amount can qualify

Practically every country of the tropical world grows coffee in amounts varying from a few bags up to many millions, with Brazil, Central America and Columbia standing first in order of importance.

High grade coffee is extremely scarce and out of this enormous production, only a very small percentage can pass the tests to which coffees are subjected before being purchased by Hills Bros. Yet none, if used alone, would be satisfactory to the taste of those who have become accustomed to Hills Bros. Coffee, for no single lot of coffee, however fine, is equal to a blend. Every coffee has some particular characteristic. It may have fine flavor, but be decidedly weak, or it may have heavy body but lack in flavor. Of course, there are hundreds of different types, and the combining of these many lots into one perfect coffee is the work of the coffee tester and blender.

This particular division of the coffee business is of the utmost importance, for here counts skill and knowledge that can be obtained in but one way-long years of study and experience. This particular division of Hills Bros, business is under charge of three experts whose combined years of service amount to nearly one hundred years. Their ability to develop fine flavored uniform blends is reflect ed in the cup of Hills Bros. Coffee served at your table.
