There should be small difficulty about absorbing these new arrivals, except the Mexicans and African blacks, and the latter are so few that they may be lost among the millions of native negroes. Increased Mexican immigration is doubtless due to growing shortage of common labor and is of the migratory class.

The restriction law following close upon the war has done much toward facilitating the work of the work of the millions of farmers would attract more farmers to the toward facilitating the work of the more and still higher prices, while the toward facilitating the work of the more farmers would cause in for advocating this additional burden den upon the taxpayers certainly do not warrant any such legislation. American principles are taught just as effectively in the private as in the public schools. The English language is the only one taught in the elementary grades of these schools have proved their patriotism and tribin may then send prices up, and urban workmen may demand higher wages, but rising wages would attract more farmers to the cities, causing less farm production why all this clamor against the private schools now? What have they done of late to warrant opposition?

All MEMBERS OF ONE BODY.

The reasons given by Mr. Wilton for advocating this additional burden upon the taxpayers certainly denuted to warrant any such legislation. American principles are taught just as effectively in the private as for the public schools. The English language is the only one taught in the elementary grades of these schools have proved their patriotism and their Americanism throughout the history of the nation. Foreign-ers have been Americanized quite as thoroughly the private schools.

We have gotten along peaceably with both the public and private schools in operation heretofore. Why all this clamor against ALL MEMBERS OF ONE BODY.

war years but a large part of that influence by the fall of prices has war. These immigrants furnished to one another, and the falling off most of the supply of floating comhigh cost of production and trans-portation for what the farmer consumes leaves him little or no profit.

ERAL GOOD.

Canada not being in a position to do its share in building the Lakes. St. Lawrence waterway, we may consider legislation by congress.
