### Agreement Signed by Trainmen and Conductors.

# OLD PAY RATES REMAIN

Proposed Increase for Maintenance of Way Men Refused by Labor Board.

CHICAGO, Oct. 3.—(By the Associated Press.)—A new agreement maintaining the old rates of pay and rules and working conditions was signed today by representatives of approximately 48 railroads and subsidiaries and the Brotherhood of Railroad Trainmen and the Order of Railway Conductors.

Proposal for a 2-cents-an-hour increase for track and common laborer was taken part in the discussions, which opened yesterday, Albert Phillips of the labor group and Samuel Higgins of the railroad group being absent.

The public representatives, Chairman Hooper, R. M. Barton and G. W. W. Hanger, who are authoritatively reported, sponsored the rejected increase. It was understood that their offer was based upon the general change in industrial conditions since last March, when the evidence upon which the last out of the track and common laborers' wages, amounting to five cents an hour, was presented. This decrease became effective July 1 last.

**Living Costs Work Up.**  
Evidence offered the labor board, the public group was understood to have held, was that decreases in wages and living conditions predominated over advances until June this year. Since then, however, there has been a slight upward trend.

On Monday the maintenance of way organization, representing more than 400,000 men, went into convention at Detroit, with its president reported as impatiently waiting a decision on his proposal to explain his action July 1 in holding in abeyance a strike vote and refusing to accompany the shopcrafts in a walkout as a protest against the decrease effective on that day.

At that time W. L. McMenimen, labor member of the board, was generally conceded to be the mediator who successfully persuaded President Grable not to call a strike. Today he was reported as against the public group, holding that the proposed increase was not sufficient.

A. O. Wharton, the third member of the board, was reported to have stood by Mr. McMenimen in this attitude. They were reported to have offered a large increase, which was rejected.

**Increase Is Expected.**  
Although the deadlock was said to be only temporary and will end inevitably in a decision, probably an increase, the board was expected as to whether the labor board would again consider the maintenance of way case until the two absent members return. Both are expected by the middle of this month. The board will not hold an executive session tomorrow but may convene again Wednesday morning to consider other matters, it was said. It was stated as probable that the maintenance of way case will be held in abeyance until after the board reaches a decision.

# DAUGHERTY CONCILIATORY

### Government Would Co-operate in Adjusting Differences.

WASHINGTON, D. C., Oct. 3.—Formal assurance of the government's willingness to co-operate in an effort to obtain a final adjudication of the Chicago injunction was expressed tonight by Attorney-General Daugherty in a letter to Donald R. Richberg of Chicago, attorney for the striking shop crafts. Mr. Richberg, who has been here conferring with officials of the department regarding the attitude toward an appeal of other steps which would result in further litigation upon the injunction, was assured of co-operation so far as was considered legitimate and not in contravention of the judicial code.

The letter will not be made public here, Mr. Daugherty announced, until it has been received by the shopmen's counsel.

### GEORGE WILLIAMS IS HELD IN HAINES JAIL.

### Prisoner Assigns Shooting to Row Over Payment for Work Done for Victim.

HAINES, Or., Oct. 3.—(Special.)—George "Red" Williams, who shot and killed Paine at the artist's cabin in the foothills of the Blue mountains, nine miles west of Haines, late Sunday afternoon, was arrested by sheriff officers Sunday night. Williams met the officers at his home, a mile and a half from the scene of the tragedy, where the body of Paine lay.

Both Williams and the dead man have been suspected of traffic in moonshine liquor and there is evidence that the dead man had been for some time past engaged in its manufacture.

Self-defense will be the plea of Williams. While two bottles partly filled with whisky were found on the table in the dead man's cabin, and Williams admitted that he and Paine had been together during the day, he said liquor had no part in the tragedy, nor did the arresting officers detect even the odor of whisky on the prisoner when they arrived at his home.

According to Williams, he had assisted Paine in rounding up several head of sheep. The quarrel arose over the payment Williams was to have received. Williams said Paine drew a revolver and that he shot him with a rifle. The ball entered the right side, ranging downward, and did not pass out. The body has been brought here.

Practically nothing is known of the dead man other than that he had resided in this section for some time. He was about 50 years of age and was never regularly employed. Those who knew him

# BONUS PROBE DEMANDED

### DISCHARGED APPRAISER TO WELCOME INVESTIGATION.

### O. B. Hardy of Deschutes County, Wants Grand Jury to Go Into Work Under Board.

BEND, Or., Oct. 3.—(Special.)—O. B. Hardy, removed with H. J. Overstreet as a member of the Deschutes county board of appraisers for the bonus loan, will welcome a most searching investigation, he declared here today on his arrival from Redmond.

"I'll be tickled to death to have some of them come in," he said, commenting on the telegraphic report that a grand jury probe would be made on basis of allegations that valuation of real estate offered as loan security had been padded by the appraisal board.

"I'm really anxious to go to the mat with them."

As far as padding is concerned, Hardy mentioned that in the first \$100,000 of appraisals he had been within \$4000 of the valuations set by the applicants themselves, his appraisals running over the total of valuations in the applications.

"An appraisal is only a matter of opinion, anyway," he pointed out.

"Now that the commission has made these charges I want them to come on through and prove what they have charged," Hardy said.

# CRIPPLED Criminal Sentenced.

### THE DALLIES, Or., Oct. 3.—(Special.)—James Powers was this morning sentenced to serve five years in the state prison, upon his plea of guilty to a charge of having attempted a crime against a 12-year-old boy. At the time of his arrest a month ago, Powers suffered a broken leg while attempting to escape from the second story of a local hotel by means of a rope ladder, which slipped from his grasp. He was carried into other court room.

# Lane Grand Jury Called.

EUGENE, Or., Oct. 3.—(Special.)—The Lane county grand jury has been called by Judge Skipworth to convene next Monday to take up a number of criminal cases that have accumulated on the docket in the last two months. Mrs. Emma Finlayson of Eugene is foreman. The other members are Co. S. E. Dill, Andrew J. J. Tuck, Alfred Beidler, William J. Tuck, Squire Smith and John W. Gates.

## The New Way To Save

### Refinish the Old Things in Your Attic

MANY a fine piece of furniture is discarded when it is old only on the outside. If refinished it would be as good as new.

You can refinish furniture, woodwork and floors as well as anyone. You'll enjoy doing it, too. The work is fascinating and the cost next to nothing.

For 73 years we have been making special paints, varnishes, enamels and stains for you to use. They are the best products of their kind that we know. They make refinishing easy and successful.

Of course there are a few simple directions that you must follow, but we have organized a "Home Service Paint Department" to help you. Just write this department, telling them what you want to refinish and how you want it to look when finished.

**Fuller's Home Service Paints**  
Varnishes—Enamels—Stains

Manufactured by W. P. Fuller & Co.  
Dept. 7, San Francisco  
Pioneer Paint Manufacturers for 73 Years. Established 1856.  
Branches in 19 cities in the West. Dealers everywhere.

WHERE TO BUY. Be sure and get the right material. The coupons below tell you where you can get Fuller's Products. Cut it out as a reminder. Write us now—a postcard—for Fuller's "Home Service" Paint Book, which tells you just what to buy for every kind of painting. Send full description and get our free advice on any kind of painting you want to do.

- SAVE THE MEMO BELOW—CUT IT OUT AND PASTE IT IN YOUR NOTE BOOK

## Stiffen your beard and make shaving easy

Buy a HAIR on a piece of paper, and draw the DULLEST razor across it. You will CUT the hair easily. You doubt this—but try it—you'll see! The paper holds the hair firm for the blade's edge. That's why the razor cuts the hair easily.

But the stubble of beard on your face is not a solid surface of hairs. There are thousands of empty spaces between the hairs. The razor jumps across these empty spaces. The zigzag, staggering, jolting, jumping of the razor blade across the empty spaces and through the hairs is what causes the "pull" and irritation.

## A Great Discovery

### that ends all shaving troubles

The soft, firm substance of Barbasol fills the empty spaces between the hairs, holding them up against the edge of the blade. Barbasol offers the same gentle resistance to the razor as the softened hairs. The razor cuts straight across the base of the hairs close to the skin. You get a smooth, close shave without "pull" with few razor strokes.

Barbasol fills the empty spaces and holds the softened hair up like this—

Diagram of a Barbasol shave—softened hair up like this—

The trouble with lather is that it is light and porous. It lets the weight of the razor turn the hairs down against the face. The blade cuts through the length of the hair, causing the "pull" so many men suffer from in shaving. To get a close shave, with lather, therefore, is difficult. You must go over the face several times, which increases the irritation.

## Shave With Barbasol

### No Soap! No Brush! No Rub-In!

You put Barbasol on your face with the tip of your fingers—gently spreading a soothing, cooling film of Barbasol over the beard stubbles. Then shave. Barbasol requires no rubbing-in.

After shaving, do not use any soap to wash off the Barbasol. Just wipe your face with a damp towel, then with a dry towel. For Barbasol itself is the most soothing of face emollients. Barbasol and your razor are all the shaving kit you'll need.

Don't wait another day for your first Barbasol shave. Shave the Barbasol way tonight or tomorrow morning. It will be the best shave you've ever had—a cool, clean, comforting shave without razor "pull" and smarting skin. At most drugists, 35c and 65c. If yours cannot supply you, send 10c in coin or stamps for one week's trial tube.
