

PENSION AND PARK LEVIES APPROVED

No Further Authority Needed From Voters.

COUNCIL TO TAKE STUMP

Need for Three-Mill Charge Is to Be Presented in All Parts of City; Service Threatened.

After a lengthy conference with City Attorney Grant and Chief Deputy City Auditor Grutz, members of the tax conservation and supervision commission agreed yesterday that the policemen's relief and pension and the special park and playground levies can be included in the city's budget without any further authorization from the voters.

It also was agreed that the council could seek authority to levy the special 3-mill tax for general municipal purposes for two years instead of one, thus avoiding the necessity of paying out approximately \$28,000 for a special election in the fall of 1923.

Limit Not Exceeded.
It was pointed out to members of the tax commission that the policemen's pension levy as well as that for the parks and playgrounds, added to the regular eight mill levy does not exceed the 4 per cent tax limitation and for that reason there was no necessity of asking the people to re-authorize these two levies.

As a result, the council, at a special meeting last night, referred the three-mill measure to the voters by the adoption of a resolution, the levy to be effective for two years. At the end of that time, if the city finds it necessary to have the special levy, the people will be asked again to authorize its inclusion in the budget.

Members of the city council are preparing to wage a whirlwind campaign in behalf of the 3-mill levy. It being pointed out that failure of the voters to re-authorize this amount would disrupt the entire city service.

"The city council has trimmed out every possible item in the budget that is not deemed to be imperative," said Commissioner Barbur. "There are many things that have been excluded from the budget that are necessary and that people are demanding because we are trying to hold down the city expenditures."

Service Is Threatened.
"But if the 3-mill measure is not ratified it will mean the curtailment of service, the cutting of salaries of city employees—and cutting of salaries will not end with the city, for it will tend to start a general downward revision of salaries throughout the city."

"There will not be a department that will escape being hit for the three-mill levy raises about \$830,000, which would have to be removed from the present budget if the levy fails. This means that police and fire service must suffer, that the health bureau, street cleaning bureau, public works and, in fact, every department, must share a portion of the trimming."

"In my department, it is impossible with the money that we have been allowed in the budget to take care of more than a fraction of the public works that the people are demanding and to which they are entitled. People building homes want lights but if the three-mill levy fails, no new lights can be installed and it is even probable that some of the present lights cannot be maintained."

"The situation is critical and members of the city council have agreed to take the stump in behalf of the measure."

BRUMFIELD DEBT UNPAID

ROSEBURG BANK SEEKS TO COLLECT ON NOTE.

Writ of Attachment Filed Covering Any Property in Possession of Dentist's Wife.

When Dr. E. M. Brumfield cheated the gullible by killing him in his cell at Salem recently and made it impossible for insurance companies in which he carried heavy policies to escape payment on them, as they might have done under certain provisions of their contracts if he had been legally executed, it seemed that the spotlight of publicity had flashed for the last time on the name of the Roseburg dentist.

But this was not to be. Yesterday in circuit court the Douglas National bank of Roseburg filed suit to recover \$1500 due on a promissory note signed jointly by the doctor and Marie Brumfield, his wife, March 23, 1921. A writ of attachment was also filed to enable the bank to take possession of any property it could find in the ownership of Mrs. Brumfield.

Attorneys for the bank expressed belief that Mrs. Brumfield is living in Portland under an assumed name, but they have been unable to get in touch with her as yet.

Old Bridge Being Removed.

EUGENE, Or., Oct. 6.—(Special.)—The Southern Pacific company has begun to tear down the old steel-arch bridge that spans the Willamette at Springfield. The bridge was built about 12 years ago, and carried the interurban cars that ran between Eugene and Springfield. Early this year the route was changed and the cars now cross the river on the same bridge with the steam trains. The concrete piers of the old bridge will be retained as supports for the gas mains leading from the Eugene plant to Springfield.
