

# THOUGHT GOVERNS ALL, SAYS SPEAKER

### Health of Mind Held Mankind's Security.

## WORLD REFORM POSSIBLE

Bicknell Young, Christian Scientist, Pleads for Exercise of Faculty That Exalts.

"Christian Science reveals the fact that thought governs or misgoverns mankind, as the case may be, including the body, and that as we approach and attain the divine standard, the health and safety of the body are proportionately secure," declared Bicknell Young, member of the board of lecturership of the mother church, the First Church of Christ, Scientist, in Boston, Mass., who lectured last night in the auditorium on "Christian Science, the Science of True Living." Mr. Young, whose home is in Chicago, was formerly first reader in the mother church.

"I come here tonight to speak to you on a subject which rests upon the fundamental facts of being and which in the measure that it is understood is capable of aiding and even of transforming the life of every man, woman and child," said Mr. Young. "Because it can do this it follows that it can also reform the world, and I am prepared to show that it will do so, just as fast as you and the rest of mankind understand and adopt it."

**Thought Highest Function.**  
"If we are living at all (and we are), if there be any action, energy, opportunity, availability, originality or volition; if men and women exist at all, and can think or do anything at all, then there is a science for all this, and it is commensurate with all that may be required or desired."  
"We have been taught to look out for our material needs, and we have been instructed in some of the sciences which are supposed to aid in administering to those needs, but our thinking, which is the most important thing we ever do, has had no science to govern or exact it, but has been based upon and fostered by education which assumed and incited the theory that material governs man. Christian Science reveals the fact that thought governs or misgoverns mankind, as the case may be, including the body, and that as we approach and attain a divine standard, the health and safety of the body are proportionately secure."

**Immediate Results Seen.**  
"Such work is not less scientific than that of sciences which have to do with material phenomena. In fact, to investigate and understand thoughts and their nature and laws is the highest kind of scientific research, and is the most interesting and instructive of all studies. Besides this, there are immediate results, visible and practical, to be attained by such a course. They are often acknowledged by the general public, who do not hesitate to say that Christian Scientists are a happy and healthy class of people. In mentioning this I am not claiming that all that can be desired in these directions has been accomplished, but at any rate, thousands of people who are alive and well today testify that they were saved from death and their health restored through Christian Science."  
"To the old way of thinking it seems incredible that materially intangible facts should have actual value and influence. Yet the founder of the Christian religion proved beyond all question that diseases even of the most fatal nature could be absolutely healed by the power of the understanding."  
**Power to Heal Divine.**  
"He taught, however, that such power can only be available to men in proportion to their righteousness, their rightness in every way. He knew and declared that the power to heal is wholly from God, the divine mind, and he said and showed by his own works that this power is natural to men and women in the proportion of their understanding or enlightenment on the true nature of God and his law."  
"The Bible is the original revelation of the immortal relationship of God and man. Christian Science makes this relationship understood, and in doing this it removes condemnation and establishes redemption in its stead."  
"The Christian Science church has announced another lecture Thursday night, October 13, in the auditorium."

## CANDIDATES ARE INVITED

and Walter M. Pierce, democratic candidate for governor, to speak. A dinner, for which the women of the grange are famous, will be served at 12 o'clock. The evening will be devoted to the degree work and a programme. Mrs. Hoffman of Portland, lecturer of Pomona grange, is to have charge of the programme.

## PUPILS MAY BE BOARDED

Opinion Declares Transportation or Food May Be Provided.

SALEM, Or., Oct. 6.—(Special.)—In case a school district has suspended school, the district board has authority, if it sees fit, to arrange for the instruction of pupils residing in such district with any adjoining or other district either within or outside the state, and the board of school directors has the right to pay the tuition of such pupils.

## PASTOR TO TAKE TRIP

Oregon City Minister to Preach Before Corvallis Session.

OREGON CITY, Or., Oct. 6.—(Special.)—Rev. Caridoc Morgan, pastor of the Congregational church of this city, will leave for Corvallis tomorrow afternoon. Rev. Mr. Morgan is chairman of the business committee of the state conference of the Congregational church, which will deliver the pre-convention sermon at the Corvallis Congregational church Sunday morning.

## BEND HEARS MR. RILEY

East Is Coming West, Declares Speaker at Banquet.

BEND, Or., Oct. 6.—(Special.)—The east is coming west, predicted Frank Branch Riley tonight at the banquet given by the Bend Commercial club in honor of the delegates to the Oregon Irrigation congress at

## MR. BIGELOW CANDIDATE

CITY COMMISSIONER WILL SEEK RE-ELECTION.

President of Council to Stand for Another Term, Record Being for Economics.

the Elks' club. The easterner is not coming of his own volition, however, Mr. Riley emphasized. He must be attracted, lured, almost dragged to the west, but once here he can be sold. Oregon scenery and forests and the vast natural water power resources will be the chief attractions to the easterner, he declared. Mr. Riley portrayed the reaction of the easterner to the story of the west. His address was drawn chief-

C. A. Bigelow, city commissioner, who will seek re-election.

C. A. Bigelow, commissioner of public affairs, will be a candidate for re-election at the municipal election November 7. It became known yesterday. Mr. Bigelow obtained nominating petitions from City Auditor Funk and stated that he would file them as soon as they were filled out. Commissioner Bigelow is the only city commissioner who has had continuous service on the council since the inauguration of commission form of government. He is president of the council and is in charge of the fire bureau, the street-cleaning department, the municipal garbage incinerator and the public markets.

## BEND HEARS MR. RILEY

BEND, Or., Oct. 6.—(Special.)—The east is coming west, predicted Frank Branch Riley tonight at the banquet given by the Bend Commercial club in honor of the delegates to the Oregon Irrigation congress at

ly from his experiences before hundreds of audiences throughout the country.

## Alpha Delta Phi Luncheon Today.

The Alpha Delta Phi division of the alumnae organization will hold a luncheon at the Hazelwood restaurant today at 1 P. M. All members have been urged to attend.

Phone your want ads to The Oregonian, Main 7976.

## SALMON RUN TO BE BIG

GOOD FISHING IN COLUMBIA NEXT 2 WEEKS FORECAST.

Rains Have Helped Trout Angling—Good Catches Are Reported From St. Helens.

Reports from Astoria say this year's run of silver-side salmon will be one of the largest in years. The bay at Astoria is full of salmon, which should make fishing in the Columbia and its tributaries good in a couple of weeks.

The rains have helped trout fishing. Most of the streams were low, but as they rise fishing becomes better. Jess Hammer and G. T. Hunter got a fine mess of salmon trout in Scappoose river a couple of days ago.

A party composed of Jack Herman, J. T. Hunter and S. Hallock landed several nice salmon trout at St. Helens last Sunday. Orville Reed and his two sons also caught a basketful at the same place.

After a successful fishing trip last Sunday at the mouth of the Lewis river, Homer Harrington, Louis Larson and George Falk again will try their luck tomorrow in the same spot. They report many schools of salmon trout, and according to Mr. Larson this week's rains should make fishing in the Lewis river still better.

John Budelman landed an 18-pound silver-side salmon in the Nestucca last Sunday. Mr. Budelman was accompanied by Dr. F. H. Damman, who also had good luck. Ray Chapin and Ivy Collins landed the limit of salmon-trout Saturday and Sunday in the Nestucca at Woods, Or. Fine trolling is reported near Woods.

Gus Jones got 42 salmon trout Saturday and Sunday in the Lewis river. Harry Mountain, S. E. Walcott and I. W. Church landed the

limit in the Nestucca Sunday and Clifford Ball got the limit of trout at the mouth of the Kalama river.

The Salmon Club of Oregon will meet soon to prepare for the season instead of waiting until spring as heretofore. The club will present the biggest list of prizes it has ever had, according to Walter Haggenbach, secretary.

Starting Friday, October 27, the Multnomah Anglers club will resume its regular monthly meetings. The monthly casting tournaments will be held by the club again, starting next month. They were suspended for a while because so many members were out of the city on vacations.

## LIQUOR MAKERS FLAYED

Mormons Bar Brewers, Purchasers and Drinkers.

SALT LAKE CITY, Utah, Oct. 6.—Whisky, cigarettes and those who he said were deliberately vilifying the Mormon church were flayed today by President Heber J. Grant at the opening of the 12d semi-annual conference of the Church of Jesus Christ of Latter Day Saints. "Any persons who drinks or makes or sells or purchases whisky cannot be a member of the Latter Day Saints," he declared.

## General to Inspect Students.

WALLA WALLA, Wash., Oct. 6.—(Special.)—Major-General Charles Morton, commanding officer of the ninth corps area, will be in Walla Walla the last of the month to inspect the reserve officers' training corps at the high school, according to word received today. Approximately 300 boys are enrolled in the corps.
