

DEBT CANCELLATION STRONGLY OPPOSED

Europe Should Pay, Says Representative Burton.

CURB ON WAR IS WANTED

Loans Declared Made With Great Sacrifice and With Expectation of Remission.

WASHINGTON, D. C., Oct. 9.—A strong declaration was made today by Representative Theodore E. Burton, republican, Ohio, a member of the allied debt commission, against any cancellation of the debts of European nations to the United States.

Representative Burton conferred with President Harding today, and after campaigning in Ohio, will return here for the meeting this month of the allied debt commission with Great Britain's financial representatives.

Three Reasons Advanced.—There are many reasons why the allied debts should not be cancelled, said Representative Burton. "First, they are binding obligations, a national debt, and their cancellation would throw trouble on national debts, which is an all-important part of all commercial and industrial relations."

Further Loans Opposed.—"Further, while we recognize that on sacrifices made by the allies during the war, their danger was more imminent and we have gained no territory and are not expecting any large indemnities. The general feeling abroad is that these debts ought to be paid."

He did not appear to be impressed by the league of nations, several of whose meetings at Geneva he attended. "It seemed like a big debating society," he said, declaring that a number of irrelevant and academic questions seemed to be receiving undue attention.

PART OF HAP CROP FREE

Quarantine in Portions of Baker County Is Lifted.

BAKER, Or., Oct. 9.—(Special).—An official notice from the state board of horticulture releasing Baker and Sumpter valleys from the hay shipping quarantine placed on the rest of Baker county was received today by County Judge Dodson.

As a result of the modifying order probably \$50,000 worth of hay, Baker county's largest agricultural crop, which has been baled or cut, will be released for shipment.

RED CROSS IS READY

PREPARATIONS MADE TO AID NEAR EAST SUFFERERS.

Facilities Also Are Placed at Disposal of John Barton Payne for Relief of Sufferers.

WASHINGTON, D. C., Oct. 9.—The American Red Cross made ready today to extend again a helping hand across the seas, this time to aid refugees in the near east. Announcement was made at the opening of the annual convention of the organization that its executive committee had placed in the hands of Chairman John Barton Payne all of the organization's funds and facilities to aid near eastern sufferers.

The action brought praise from President Harding, who, in a message of greetings, expressed gratification at the steps taken to meet the emergency for which a national appeal for funds was authorized yesterday by the president.

Chairman Payne said no appropriation of funds could be made, but the amount required was unknown, but the committee directed him to use such funds as he deemed advisable.

The situation of disabled ex-service men was also widely discussed by the convention. While several speakers voiced dissatisfaction with the work of the veterans' bureau, the gratification of a number of Red Cross chapters was expressed by other speakers, who lauded the efforts of the bureau to co-operate in the relief work.

DEATH RATE REDUCED

Infant Mortality Also Is Smaller, According to 1921 Figures. WASHINGTON, D. C., Oct. 9.—A record low death rate was established last year in the registration areas of the United States, according to an announcement tonight by the department of commerce, which gave the 1921 rate as 11.7 a thousand population against 13.1 in 1920. The infant mortality rate for 1921

CROP PROSPECTS SUFFER GENERALLY

Harvests, However, to Be Larger Than Last Year.

NEBRASKA CORN IS HIT

25,000,000 Bushels of Oats and 21,000,000 Bushels of Corn Preliminary Estimates.

WASHINGTON, D. C., Oct. 9.—Crops generally suffered loss in prospective production during September, but the harvests will be larger than they were last year, except in the case of corn, buckwheat, sugar beets and peanuts.

Preliminary estimates and forecasts of production, announced today by the department of agriculture showed a reduction, as compared with a month ago, of 25,000,000 bushels of oats, 21,000,000 bushels of spring wheat, 16,000,000 bushels of peanuts, 5,000,000 bushels of white potatoes, 2,500,000 bushels of sweet potatoes and 2,900,000 bushels of apples.

Nebraska Corn Suffers.—Nebraska's corn crop suffered most, showing a reduction of about 13,000,000 bushels from a month ago. The reduction in Illinois was about 12,000,000 bushels, in Missouri 7,000,000 bushels and in Kansas 4,000,000 bushels.

The preliminary estimates of production of spring wheat by principal producing states (in thousands of bushels) is as follows: Minnesota, 38,702; North Dakota, 114,206; South Dakota, 30,652; Montana, 32,355; Washington, 10,852.

The condition on October 1 and the forecast of production (in thousands of bushels) of principal producing states were announced as follows: Corn—Pennsylvania, condition 54, and forecast 64,733; Ohio, 83 and 134,828; Indiana, 38 and 178,391; Illinois, 39 and 212,251; Minnesota, 77 and 125,442; Iowa, 98 and 441,201; Missouri, 77 and 169,372; South Dakota, 81 and 115,019; Nebraska, 84 and 106,195; Kansas, 59 and 105,291; Texas, 69 and 121,234.

WASHINGTON WHEAT HIT

Spring Yield for 1922 Placed at 10,552,000 Bushels.

SPOKANE, Wash., Oct. 9.—The spring wheat crop of Washington for 1922 is placed at 10,552,000 bushels, according to figures announced today by G. S. Ray, agricultural statistician, in charge of the division of crop and livestock estimates of the United States department of agriculture here. The yield is estimated at 5.2 bushels an acre, one of the lowest yields to an acre on record.

Washington's oat crop is estimated at 7,576,000 bushels, compared with 10,500,000 bushels in 1921. The yield per acre this year is 18 bushels, against 59 bushels in 1921. Preliminary estimates place the

Contented Men Try a still better cream

We know that most men are contented with their shaving cream. We cannot win them unless we serve them vastly better. But you are the men we appeal to—you contented men. Compare our shaving cream with yours in these five great respects. Then we'll accept your verdict.

- 5 improvements
1. Palmolive Shaving Cream, in these five ways, excels all others that we know. And all you know, we think.
2. In abundance. It multiplies itself in lather 250 times.
3. In quickness. It softens the beard in one minute. No finger rubbing. No hot towels.
4. In endurance. It maintains its creamy fullness for ten minutes on the face.
5. In service. The extra-strong bubbles support the hairs while you cut them.
6. In after effects. This palm and olive oil blend leaves the face in fine condition.

We have spent 60 years in soap study. Some of our creations stand supreme. The leading toilet soap of the world—Palmolive—is one of them. Now comes a shaving cream, perfected by that same skill. We made up and tested 130 formulas before we called it perfect. If the things we cite are things you want, see how we've attained them. Cut out the coupon now.

barley yield this season at 33 bushels per acre, compared with 36.5 bushels in 1921.

Potatoes in Washington averaged 75 per cent of normal on October 1. The crop is expected to be 8,375,000 bushels this year. The September 1 estimate was 7,920,000 bushels. The 1921 crop was 7,455,000 bushels.

Apples dropped from 82 per cent of normal on September 1 to 71 per cent of normal on October 1. The state's total apple crop is estimated at 25,175,000 bushels, compared with a 1921 crop of 29,062,000 bushels, and the September 1 estimate of 25,358,000 bushels. The commercial apple crop is placed at 20,895,000 bushels, as against the forecast of 22,335,000 bushels and the 1921 crop of 24,000,000 bushels.

The decrease in apple estimates, according to Statistician Ray, is due to the severe "worm" damage in the Wenatchee district, many localities throughout the Yakima valley and in the White Salmon district. Fall damage has reduced the crop in the Okanogan district in Okanogan county.

Washington's pear crop is estimated at 1,325,000 bushels, or 59 per cent of a normal crop. The September 1 estimate was 1,780,000 bushels and the 1921 crop was 1,710,000 bushels. Grapes with an average condition of 50 per cent of normal on October 1, give promise of a crop of 3,520,000 pounds. The September 1 estimate was 2,827,000 pounds.

Landing Fields to Be Faced.

SALEM, Or., Oct. 9.—(Special).—Lieutenant H. D. Smith, in charge of the forest airplane patrol in Oregon during the past summer, has received instructions from the government to establish emergency landing fields at intervals of 25 miles along the course of airplane operations in Oregon and Washington. Lieutenant Smith was in Salem today conferring with F. A. Elliott, state forester, with relation to the undertaking.
