RAIL AGENTS ARE BUSY

Business Men Are Urged to Support Committee Findings; Plans for Referendum Are Blocked.

Activity of persons opposed to be resolution adopted last week y directors of the Chamber of Commerce expressing conclusions on the unmerger of the Southern and Central Pacific properties again became marked yesterday when pe-fitions were circulated for signatures to a statement promulgated by the special railroad committee of the chamber and submitted some time ago. This report was not approved by the directors who made an entirely different finding.

It was common knowledge that agents acting for the Union Pacific company are besleging local busi-ness men for their signatures. The contention between the Southern and Union Pacific for pessession of the Central Pacific property was not allayed when the directors of the chamber reached their decision with adoption of the latest resolu-tion on the subject tion on the subject.

Fight Expected to Continue. While this was satisfactory to the Southern Pacific, since the report of the special chamber committee had declared for dismemberment of the Southern and Central Pacific, which the directors did not indorse the Union Pacific protagonists found in the directors' action that they were losing ground in the con-

tention and wished to have the spe cial committee report reaffirmed. Directors of the chamber ha unmerger that has raged for weeks throughout the state would be quieted, so far as Portland is concerned, when the report was made. But this belief has proved vain and it appeared yesterday the fight is likely to go on.

Controversy Is Deplored. That such a situation is deplored, and regarded by officials of the

chamber as likely to cause harm to that organization, since bitter to that organization, since bitter feeling has been aroused and hostility developed by the unmerger fight was evident in a separate resolution adopted by the directors last week when the unmerger stand was taken. This was in answer to a request for a referendum vote by members of the chamber, asked with a view of supporting the report of the special unmerger committee. The resolution referred to the wisdom of allaying the contro-

Resolved That it is the sense of this board that the interests of the chamber will be best served by avoiding the possibility of further sigitation and propaganda inevitable to a campaign in connection with a referendum vote, and that we respectfully decline the requests for referendum and ask that such requests he withdrawn.
