

RUSSIANS DISPATCH POLISH ULTIMATUM

Same Treatment as Other Powers Demanded.

ENTENTE ALSO WARNED

Occident Accused of Being Unwilling to Satisfy Wishes Regarding Turkey.

BY GEORGE SELDES.

(Chicago Tribune Foreign News Service, Copyright, 1922, by the Chicago Tribune.) MOSCOW, Nov. 11.—(Delayed.)—No better evidence could be shown of the new Russian attitude toward the world than two statements which were issued tonight from the foreign office, one sharply attacking Poland and the second attacking the entente on account of its attitude toward Turkey.

Tonight's notes are in the same tone as the recent notes addressed to Great Britain, Roumania and Japan regarding other disputes. They show that the Russian attitude is influenced more and more by the Russian victory in Vladivostok, by the Turkish victory, by Russia's passing through the famine and by her new army, which American observers believe could now march through Poland victoriously.

Poland Gets Warning.

The note concerning Poland insists "Russia must be treated on the same footing as the other powers." This is considered an ultimatum to Poland that General Pilsudski must honor the Russian ambassador's credentials, failure of which will cause a withdrawal of the envoys of both sides.

Communists Are Stirred.

The delegates reporting the communists of the world are deeply stirred by the Polish event, but after seeing each other's army they are openly expressing hope that Russia will answer General Pilsudski's alleged insult with strong means, relying upon the Polish communists to assist in regaining respect for the communist envoy.

The statement regarding Turkey, which M. Tchitcherin gave to the press, declares that the entente does not desire to satisfy Turkey's legitimate demands, and reaffirms Russia's position as Turkey's big brother.

DEBT PAYING EXPLAINED

ARRANGEMENTS MADE PUBLIC BY MR. MELLON.

Either Cash Redemption or Exchange Into Treasury Savings Certificates Is Offered.

WASHINGTON, D. C., Nov. 12.—Arrangements for handling \$625,000,000 of war savings certificates of 1918 which mature January 1, 1923, were announced tonight by Secretary Mellon, who said they were in the hands of millions of holders.

"For their convenience," the statement said, "the treasury is offering special facilities for cash redemption or exchange into treasury savings certificates of the series of November 15, 1922, and of presentation before January 1, 1923."

The proposed exchange is part of the treasury's programme for funding the short-term debt, which amounts to \$3,000,000,000 remains to be funded by the end of the present fiscal year.

"Beginning November 15, 1922," Mr. Mellon explained, "holders of 1918 war savings certificates can exchange them at maturity, value for treasury savings certificates dated January 1, 1923, at the same time can get advance payment of any cash difference by taking the largest amount of treasury certificates that their war savings certificates taken at maturity value will cover. Exchanges after January 15, 1923, with any cash adjustment will be made as of the date of exchange. Holders will not be able to make cash redemption of their certificates before maturity, but beginning November 15, 1922, they can present them in advance for redemption as of January 1, 1923, and in that event will receive on or about January 1, 1923, the cash they are entitled to receive covering the redemption value."

"Registered war savings certificates must be presented to the post-office where registered, but unregistered certificates will be received for redemption or exchange at any money order postoffice, any federal reserve bank or branch of the treasury of Washington."

TUG THOUGHT 'KIDNAPED'

Run Runners Off New York Are Blamed for Disappearance.

(By Chicago Tribune Leased Wire.) NEW YORK, Nov. 12.—Run runners of the Whiskey Armada lying four to seven miles off the New York and New Jersey coast are believed to have "kidnaped" a tug, federal investigators revealed tonight after conducting a fruitless search for it. The vessel said to be owned by a captain well-known hereabouts, left the harbor on October 19 and has not been heard from since.

Navy department airplanes and revenue cutters have searched Atlantic waters for many miles in an effort to locate the craft. The captain of the vessel is said to have had \$100,000 in cash when he left port.

Cardinals to Be Named.

ROME, Nov. 12.—(By the Associated Press.)—The Observatore Romano, the Vatican organ, today officially announced that a secret consistory will be held December 11 and a public consistory December 14 "for the creation of some cardinals."

to a ford that I never had crossed before. It was winter weather and the stream was swollen level to the banks. At the first step the horse went clean under and we both made for the far shore. There were my saddle bags—my library on one side and my wardrobe on the other. So it was all right, and I just poured the water out of 'em, and went on my way rejoicing. Praise the Lord!

"For two winters I rode the circuit and then they gave it another name. For two winters I rode it. I preached the word in miners' cabins, up and down the Rogue and far into the mountains, and there were some conversions—there were some conversions!"

Pioneer Days Happy. "And I had a good time. Yes, I did. My wife and I sometimes talk over those pioneer days and say if we were younger we'd like to go out to another frontier and do it all over again. The church has been wonderfully good to me. It has always given me better appointments than I deserved. Yes, we've had a good time, my wife and I."

"What good times we used to have! Well, I'm having a good time now I wish once in a while I had my sight, so I could read again, but my precious wife reads to me, and a man never had a better comrade. Thank you, brethren, you can know that this old man loves you!"

Dr. Parsons favors not a little a certain Nebraska statesman who we almost presume to call on occasions—and jovially radiates from his smile, as even a dim religious light refracts from his broad and polished dome. He proved replete with conference history, with tributes to bishops long gathered to their fathers, but of Bishop Harris he spoke with the reverence of a youthful novice.—His first appointment as pastor of the church was in 1878, and he has since that time continued properly of each church, is manifest and a movement is now on foot in Oregon to raise a \$1,000,000 endowment fund for the Methodist clergymen. There has already been raised a sum of \$100,000 and proponents of the plan believe that the realization of the entire fund will come.

SCHOOL BILL CONDEMNED

ARCHBISHOP CURLEY RAPS OREGON KLANSMEN.

Masonic Body Said to Have Discarded Mask in Opposing Catholicity.

BALTIMORE, Md., Nov. 12.—Archbishop Michael J. Curley in today's sermon severely condemned the "divorce evil," the public school bill adopted in Oregon at the last election, and the Scottish Rite Masons and the Ku Klux Klan for the support he said they had given this measure.

The high points in the archbishop's sermon were: "America is becoming Mormon. I think I would have more respect for the Mormon who marries to exist and supports four wives at one time than the man who marries in tandem fashion, discarding them one after another."

"America, I think, has one of the most stupid populations in the world because it allows such organizations as the Ku Klux Klan to exist. The Masonic body is directly opposed to Catholicity and has at last thrown off the mask."

The archbishop was speaking about what he declared was Masonic support of the Oregon school bill.

PARIS IGNORES TRIBUTE

FAILURE TO BE SILENT FOR MINUTE CRITICISED.

Notables at Arc of Triumph Ceremony Said to Have Talked Unceasingly.

(Chicago Tribune Foreign News Service.) PARIS, Nov. 12.—Paris newspapers were scandalized today because the people failed to observe a minute of silence at 11 o'clock yesterday, the fourth anniversary of the armistice.

"Ambassador Herrick showed surprise during the ceremony at the Arc of Triumph when the crowd continued talking and even notable who had been invited forgot to cease handshaking, and even some of the officers failed to stand at attention and salute, as in the United States, where five minutes of silence and stoppage of all traffic marked the solemn occasion," said one newspaper this morning.

Writers bitterly criticized the police for not forcing chauffeurs to halt their taxis and automobiles, pointing out that the roar of motors drowned out the warning cannon marking 11 o'clock.

Shipbuilder Marries.

SAN JOSE, Cal., Nov. 12.—Arnold E. Foster, treasurer of the Bethlehem Shipbuilding corporation, and Avice M. Sumner were issued a marriage license here yesterday. Both gave their residence as San Francisco and their ages 48 and 30 respectively.

POISON HOUSE FEARED

WOMAN'S ALLEGED VICTIMS NOW THOUGHT 12.

Children Scurry Timorously by Home Where Murder Suspicion Has Been Living.

(By Chicago Tribune Leased Wire.) CHICAGO, Nov. 12.—A paid of fear has fallen over the neighborhood where Mrs. Tillie Klimek and her cousin, Mrs. Strumer-Koulik resided before their arrest, since the revelations of their alleged poison activities. Children scurry home before dark and the elderly, chiefly German and Polish people, do not remain out much later.

The bodies of two men and a woman were exhumed Saturday and the bodies of three children will be exhumed early Monday. The organs of all will be examined for poison. The authorities believe the death list will run to 12 or more. Briefly, the record of Mrs. Klimek shows the following:

Her present husband, Joseph Klimek lies dangerously ill of arsenical poison which she admits she administered.

In 1918 she was married to her first known husband, Joseph Mikiewicz. They quarreled continually. January 13, 1914, he died suddenly, leaving \$1000.

During the latter years of their marriage, the couple lived with Mrs. Frances Zakrawski, an aunt of the woman, Mrs. Klimek and her aunt quarreled violently, chiefly over the care of the aunt, Helen, Stanley and Stella, died suddenly and mysteriously.

In 1914, a little more than a month after her first husband died, the woman was married to John Ruszkasky. He died three months later, leaving \$1200 in cash and \$772 insurance.

Immediately after his death the widow became interested in John Guszyk who took her on a pleasure trip to Milwaukee. When they returned she asked him to marry her. He laughed at the proposition and very soon thereafter he died suddenly following a dinner she gave him.

In 1919 she was married to Frank Kuszyk and to celebrate the union, she gave an elaborate dinner. Mrs. Chudinski, a neighbor, spoke in suspicious manner of the mysterious death of the woman's former husband, an elaborate dinner. Mrs. Chudinski remained for the wedding feast. She was stricken by mysterious illness that night and died three days later, Kuszyk, her new husband, died in April, 1921. His body has been exhumed and found to contain arsenic enough to kill several persons.

This is as far as the police have proceeded in the investigation. All the bodies are to be examined for poison.

The activities of Mrs. Strumer-Koulik will be investigated later.

GERMANS STAGE RIOTS

HIGH COST OF LIVING SAID TO CAUSE UNREST.

Shops Broken Open and Looted of Food by Young Workers in Various Sections.

(Chicago Tribune Foreign News Service, Copyright, 1922, by the Chicago Tribune.) BERLIN, Nov. 12.—Sporadic riots are occurring in various parts of Germany in protest to the high cost of living, which in the last month has increased more than 175 per cent, against a 65 per cent increase in salaries.

During demonstrations miners and steel workers of Cologne broke into numerous shops and stole food, shoes and confectionery. Similar riots were reported in the unoccupied zone of the Rhineland. In both places the police finally have restored order, but outside of recovered goods for the stolen property as possible, they are taking no severe measures to put a stop to the plundering. The rioters are mostly young workers.

The miners are the highest paid workers in Germany, receiving 1000 marks daily, while a loaf of bread costs 12 marks, a pound of meat 600 marks, a pair of the cheapest shoes 6000 marks and a ton of coal 25,000 marks.

Babies are suffering from malnutrition and many Germans are suffering hardships from lack of coal. Newspapers report that reparations call for nearly 2,000,000 tons of coal. Germany already is without coal and owing to the necessity of importing coal from England, will reach the point of starvation even were the reparations obtainable.

CRAFT HIT IN COLUMBIA

Legislator, Elected as Dry, Is for Volstead Change.

NEW YORK, Nov. 12.—Convicted, as he said, that enforcement of the national prohibition law has been more or less a farce, and that light wines and beer are preferable to the present situation, Senator Charles F. Gallagher, republican, re-elected to represent Essex county, New Jersey, in the next legislature as a "dry" candidate, announced Saturday that he had changed his attitude on the prohibition question.

He held that if congress votes for a modification of the Volstead act, permitting the manufacture and sale of light wines and beer, he will urge the New Jersey legislature to take similar action.

BEAUTY DEPENDS ON GOOD HEALTH

BEAUTY in a woman has its foundation in health and vitality. Loss of appetite, poor digestion, that dragsy feeling in the morning are sure indications that a woman is a little run down and needs a tonic to keep her in good health, to keep the bloom in her cheeks.

MORE RECREATION URGED

SPEAKER MAKES PLEA FOR BETTER PEAY SPIRIT.

Suggestion Made for Campaign for Shorter Working Hours and More Fun-Making.

NEW YORK, Nov. 12.—Hostility of churches and parents to the play spirit is alienating young folk from the rural churches and homes and creating bitter opposition or indifference to many of the lost sacred American institutions. Professor John F. Smith of Berea college, Kentucky, said Saturday in an address before the American Country Life association.

"People of the open country," he declared, "need instruction in the art of providing abundant, wholesome recreation for themselves and their children. The place where the first step is taken by those who prove to be great leaders in social and economic movements is on the playground."

Condemning the "sun-up-to-sun-down" workday in the rural sections, Professor Smith suggested that the association should launch a campaign for shorter working hours, play craft and community spirit in the country.

A study of habits of people of the country, he said, showed widespread opposition to group gatherings, whose chief purposes was fun-making and recreation thousands of persons, he added, contend that one cannot be a good Christian and attend meetings of merry-makers.

NEGRO ACCUSED OF SHOOTING

BEND, Or., Nov. 12.—(Special.)—Owen P. Thompson, negro boot-black, was arrested Sunday morning after firing a revolver at Walter Danmaier, whom he charged with stealing a box of candy which he had won the night before. The shooting took place in a local card room.

FRAZIER LEADS BY 7366.

FARGO, N. D., Nov. 12.—Returns from 2023 of the state's 2125 precincts tonight give Lynn J. Frazier, republican and non-partisan league candidate for United States senator, a lead over J. F. O'Connor, democratic anti-league, of 7366. The count now stands: Frazier, 28,617; O'Connor, 21,251.

CALIFORNIA DRIES LOSE

Block of Wet Votes Cuts Down Majority for Prohibition.

SAN FRANCISCO, Nov. 12.—(By the Associated Press.)—A large block of "wet" votes reported today from Placer county reduced slightly the majority in favor of prohibition enforcement, leaving the margin tonight 21,985, with 6268 precincts out of 6680 in the state tabulated.

The count on the measure now stands: For, 425,000; against, 222,142.

Completion of the vote in Placer county left the majority against enforcement, leaving the margin tonight 21,985, with 6268 precincts out of 6680 in the state tabulated.

FIRE HITS ARMY POST

Damage of About \$500,000 Done at Selfridge Field, Mich.

MOUNT CLEMENS, Nov. 12.—Fire that threatened for several hours to destroy the frame building at Selfridge Field, the army aviation post near here was brought under control late tonight, after burning the structures housing the quartermaster's department. The stores destroyed and the buildings were valued at nearly \$500,000.

Fifty or more airplanes were removed from the hangars and parked on the flying field for safety.

All pilots and mechanics at the post aided the fire fighters. The fire broke out at 7:10 P. M. Before the Mount Clemens apparatus could reach the scene, the quartermaster's building was all but destroyed. There were about 25 buildings in all at the field. All were of wood construction.
