

NEW WORK SPENDS LIKE DRUNKEN GOB

Operation Cost Exceeds Portland's Valuation.

FUNDS LOOSELY GUARDED

Budget for Next Year Approximately \$553,000,000; Highly-Paid Parasites Numerous.

BY W. P. STRANDBORG. (Special.)
NEW YORK, Nov. 12.—(Special.)—When an amazingly stupendous institution New York city is as a business concern. One can scarcely conceive what a complete and exhaustive machine it is to operate. Would readers of The Oregonian believe that it takes considerably more money for Father Knickerbocker to pay his annual running expenses than the grand total assessed valuation of all the property in the city of Portland. If the writer's memory is not wrong, the assessed valuation of Portland for taxation purposes is somewhere around \$110,000,000, perhaps a little more. Contrast with that the \$553,000,000 which is included in the city's budget to run the city next year for the city of New York, which was just approved here a few days ago. That is over \$3,000 more than it was for 1922 and over \$1,000,000 above the 1921 figures.

LA PORTE, Ind., Nov. 12.—A case rivaling in sensationalism and similar in aspect to the celebrated Tiersan-Poulin proceedings in South Bend was filed in the La Porte circuit court yesterday. George B. Sheerer, prominent Hammond, Ind., attorney, is named defendant in the action which is brought by Arnold Hasse, who charges that Sheerer is the father of a son born to Mrs. Hasse June 20, 1920. It is alleged by the plaintiff that Sheerer took advantage of the confidence placed in him as the family attorney of the Hasses and that he became intimate with Mrs. Hasse while her husband was working as a night watchman.

The Modern Laundry Brings "Sunshine" on Rainy Monday

No matter how stormy Monday may be—the woman who utilizes the modern laundry has no concern about her washing.

For rainy weather in no way interferes with the excellent work of the modern laundry. Your finest fabrics, or roughest clothes, are washed and cleaned with the same gratifying results.

It's a real pleasure on rainy Monday mornings to bundle up all the family washing, phone the laundry—and then smile.

Try it!
The best way to do the family washing.

The modern laundry does more than wash—it cleans! Instead of rubbing the dirt particles into the fabrics, it dissolves them with plenty of pure soap and then releases them by gently forcing clean water through the fabrics. Hot water and steam leave the clothes absolutely sterilized. Modern laundry methods conserve fabrics, clean thoroughly and economically, and in every way give the housewife the careful service she appreciates.

PRODUCERS

There is no place in the scheme of things for the man who is not a producer. Yet production alone is not enough—it's production properly handled that spells success. No matter what you earn, you must also build up a reserve.

During the last five years the depositors of the United States National Bank have shown themselves to be producers. They have built up a reserve of over ten millions since 1917!
