

ONE-WAY TRAFFIC IS HELD IN NEED

Danger of Business Going to East Side Cited.

CAR ROUTING IS RAPPED

Mr. Laugaard Says Plan Is No Experiment, as It Has Succeeded Elsewhere.

"Portland will not be experimenting if it decides to adopt one-way traffic, for this mode of directing the difficulties of downtown transportation is already in use in Chicago in the loop district, in New York in the Manhattan area and in Cleveland and many other cities," declared O. Laugaard, city engineer.

Million Population Foreseen.

"Based on conservative estimates by engineers who have made a statistical study of conditions here, the population of Portland will be 1,000,000 by 1937, he continued, and we must find a solution at once if the traffic is to continue through the narrow streets in the west side retail district."

It was announced yesterday that the principal had allowed the boy and girl to return to school. Their names were not made public.

CUT IN VALUATION ASKED

Northern Pacific Seeks Lower Mineral Deposit Assessment.

TACOMA, Wash., Nov. 23.—(Special.)—A claim that the county assessor had added to the true value of mineral deposits on more than 20,000 acres of land owned by the Northern Pacific railway will be made in the superior court next week in an attempt to reduce a \$25,000 assessment on the properties. With the railway as the principal plaintiff, others involved are the

Connellsville Coal & Coke company, Hewitt Land company, Pacific Coal & Lumber company, St. Paul & Tacoma Lumber company, Milwaukee Land company and the Willamette Coal & Coke company, which contend that there are no valuable minerals or coal under their properties. The original complaint was filed in August, 1921.

English Made Compulsory

HONOLULU, T. H., Nov. 14.—(By Mail.)—The alien school regulation the signing of which by the governor has been delayed, due to the legal battles conducted by lawyers for the Japan Society of Hawaii, will go into effect next year. The regulation would abolish the kindergarten now conducted in conjunction with the Japanese language schools. The regulation seeks to Americanize the Japanese by making it necessary for them to reach a certain grade before they can devote school hours to study of Japanese subjects.

WEMME TRIAL IS ENDED

HEIRS GET 15 DAYS FOR FILING OF BRIEFS.

Action to Recover \$500,000 From Scientist Churches Is Battle Over Technical Points.

Trial of the suit of heirs of the late E. Henry Wemme against the six Churches of Christ, Scientist, of Portland was concluded at noon yesterday. Circuit Judge Belt, before whom the evidence and arguments were presented, gave 15 days for the filing of briefs and 20 days thereafter for the reply of the defendants.

This suit of the heirs to recover approximately \$500,000 on the ground the churches had committed a breach of trust in carrying out provisions of Mr. Wemme's will received itself into a battle over technical points of law. The case of the heirs was measurably strengthened by the act of the state in intervening with the argument that the churches had violated a public trust. This argument was made Wednesday on behalf of the attorney-general by W. P. LaRoche. It created a mild sensation, as most of those interested in the trial had supposed the state's representative would do little more than listen to proceedings.

The stand taken by the state does not materially aid the heirs in their plea that they be given the money of the Wemme endowment fund if the court decides that the Scientists have forfeited all rights to administer the fund. The state's argument was that the fund should be turned back to the original trustees under the will. As to what then should be done with it would possibly involve a second legal battle. Judge Belt indicated the outstanding legal point at issue in addressing the attorneys at the close of the trial. He asked that in preparing their briefs they pay particular attention to the question as to whether Wemme, having created a public charitable corporation, was privileged in later portions of the will to modify provisions relating to the corporation.
