Be Entitled to Benefits of Act When Eligible. SALEM. Or., Nov. 27.—(Special.).— Revision of the state paroie laws so that all persons sent to the peni-tentiary, exclusive of those serving life terms, may receive time deduc-tions for good behavior, was recomitien terms, may receive time deduc-tions for good behavior, was recom-mended by James E. Lewis, warden of the Oregon prison, in his blemniat report completed here today. At the present time certain classes of pris-oners, because of the miture of their crimes, are not eligible for parole or release until they have served their maximum sentences.

"The present parole law," said Mr. Lewis in his report," has been changed so many times that it is wery difficult to interest and the solution of the former premier's utterances. Senator Hitchcock, replying par-ticularly to M. Clemenceau's state-

There had been discrimination, the Alabama senator shouted, declaring that in the past women had been ejected from the gallaries of both the senate and house for in-terrupting debate, while this time the disturber was permitted to re-main.

Senators Curtis, republican, Kan-as, and Hitchcock, however, ex-ressed the belief that the negro pressed the belief that the negro had acted through ignorance, and no action was taken in the case. Senator Hitchcock especially crit-iclised the statements of M. Clem-enceau in reference to the quarter-ing of French "black troops" on the Rhine, declaring the former pre-mer's denials of the use of these troops had been disproved. He also attacked the French reparations demands on Germany. Senator Myers, in defending M. Clemenceau, deplored Senator Hitch-cock's criticism of the French states-man and commended French pol-

# Quiet Remington No. 12

It wins the operator because of its many features which make the day's work swifter and easier.

Prominent among these is the "Natural Touch", that triumph of Remington design, which makes the operation of the machine like second nature-as mechanical as walking and almost as unconscious as breathing itself.

It appeals to the owner because its work is surpassingly good-and consistently good under all circumstances.

In quality as well as quantity, it gives him the results he wants.

And because it is so quiet that its operation never disturbs him, no matter how near him it is used.
