

PAV IN 4 TRADES LIFTED 10 PER CENT

Plasterers Now Draw \$10 Daily in Portland.

BRICKLAYERS WIN \$9

Hodcarriers to Get \$8 and Lathers \$9; Two Go in Effect January 1, Other January 11.

Plasterers in Portland are now getting \$10 a day, the rise from \$9 being the first step of building trades workers in seeking a horizontal increase of 10 per cent in the wages of all crafts.

The plasterers since obtaining their increase on December 1, have been working only five days a week. Whether or not the five-day week will remain in force for them has not finally been decided.

Others Receive Increases. Three groups of workers other than plasterers have received a 10 per cent increase, but these are not yet in effect.

Bricklayers have been granted a rise from \$8 to \$9 a day, effective on January 1. At the same time hodcarriers will be raised from \$7.50 to \$8 a day. On January 11 lathers will begin drawing \$9 a day instead of \$8.

Notification Sent Out. The notification sent out by the union leaders made this statement: "For some time past the building trades council has been under consideration the question of re-establishing the wage scale in force in 1920. It is felt that this action is justified by the conditions now existing and to maintain an adequate supply of competent workmen in the city."

Under the proposed two overtime pay involved in the union proposal, it was said yesterday, as the schedules are to remain as at present. The plasterers are as yet the only group which needs the overtime pay to five days.

Overtime Not Involved. There are no questions of overtime pay involved in the union proposal, it was said yesterday, as the schedules are to remain as at present. The plasterers are as yet the only group which needs the overtime pay to five days.

Members of Woman's Club Assisting Makers of Christmas Gifts to Dispose of Stocks. Philanthropic efforts of Portland's organizations are not entirely confined to providing a full stocking for the poor children and a full stomach for the new-borns.

Philanthropic efforts of Portland's organizations are not entirely confined to providing a full stocking for the poor children and a full stomach for the new-borns. The needy and unfortunate blind people of the city are to be provided with a joyful Christmas, but they are not to be the objects of charity in the sense that they are accepting gifts.

Approximately 700 cases were called yesterday in Presiding Judge Stapleton's circuit courtroom, and the proceedings were stopped only when dates and space available in the records were exhausted.

CUT IN ROAD FUND WOULD HURT WEST

Forestry Bureau Recommendation Protested.

SETBACK IS FEARED

State Engineer Nunn Comments on Proposal That Congress Reduce Road Appropriations.

"Western states are vitally concerned in the recommendation of the bureau of forestry that the \$5,500,000 appropriation for roads be cut to \$3,000,000. The western states are the ones which would feel the slash, and several Oregon projects would be affected, such as the Crater lake and others," says Herbert Nunn, state highway engineer.

Mr. Nunn returned yesterday from the convention of the American Association of State Highway Officials, held in Kansas City, Oregon has played an important part in the councils of the association for the past five years.

"If the forestry bureau receives \$3,000,000 instead of \$5,500,000, it will probably confine its work to trails within the forests and not co-operate on outside projects, as heretofore," said Mr. Nunn. "This would set back all the western states which have been co-operating with this fund."

"Congress recommended a big highway programme, which called for \$50,000,000 in 1922, \$45,000,000 in 1923 and \$15,000,000 in 1924. Congress, however, neglected to make the necessary appropriation, and while the \$50,000,000 was supposed to be available the first of last July there hasn't been a dollar for distribution. And the \$45,000,000 which was to be available July 1 next is in the same position. The western states at the conference in Kansas City adopted resolutions urging congress to make the appropriations of \$50,000,000 and \$45,000,000."

"Oregon is more advanced in its highway system than most of the middle-west states. Missouri is just starting on a roadbuilding programme. It has \$50,000,000 for road work and has \$15,000,000 under contract. Pennsylvania is moving along rapidly. Texas and Illinois are working on big road programmes, but Kansas is far behind. The good roads movement is unpopular in Kansas, for a new governor was recently elected on a platform hostile to road projects."

"Both east side and west side civic groups will support the plan in its entirety. The Chamber of Commerce has the full responsibility for the marketing problem of the state, and the proposed plan will provide an adequate solution to the present difficulties."

As a conclusion Judge G. W. Stapleton, president of the Progressive Business Men's club, not only pledged the support of the club to the undertaking, but included the Ladies' Aid society closed last night with an approximate profit of \$200.

AUTOMOBILE PRICES CUT

Reductions of \$100 to \$200 Made on Hudson and Essex.

Reductions ranging from \$100 to \$200 on various models of Hudson and Essex automobiles have been announced, the new prices going into effect today. News of the drop was received by the C. L. Boss Automobile company, local Hudson and Essex distributors.

Under the new schedule the Hudson sedan has been cut \$200 under its former price, while the Hudson coach, speedster and phaeton have been lowered \$100 each.

Both Hudson and Essex prices have already been under the former figures, according to Mr. Boss, and the latest reduction places the Hudsons several hundred dollars below the prices at which they sold even in pre-war days.

Continued demand from all parts of the country, which has enabled the factory to maintain quantity production, made the new prices possible, according to Mr. Boss.

HARVEST FESTIVAL ENDS

Dayton Bazaar and Community Fair Makes Good Profit.

DAYTON, Or., Dec. 11.—(Special.)—The two-day harvest festival and bazaar held in the community hall under the auspices of the Methodist Ladies' Aid society closed last night with an approximate profit of \$200.

EAT VEGETABLES IF KIDNEYS HURT YOU

Take a Glass of Salts If Your Back Hurts or Bladder Bothers.

The American men and women must guard constantly against kidney trouble, because we eat often too much red meat and all our food is rich. Our blood is filled with uric acid which the kidneys strive to filter out; they weaken from overwork, become sluggish, the eliminative tissues clog and the result is kidney trouble, bladder weakness and a general decline in health.

When your kidneys feel like lumps of lead; your back hurts or the urine is cloudy, full of sediment, or you are obliged to seek relief two or three times during the night; if you suffer with sick headache, or dizzy, nervous spells, acid stomach, or if you have rheumatism when the weather is bad, get from your pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys may then act fine.

Jad Salts is inexpensive; cannot injure, makes a delightful effervescent lithia water beverage and is long in every home, because nobody can make a mistake by having a good kidney flushing any time—Adv.
