Cruisers and Fleet Submarines Are Problem.

### MORE CRAFT NECESSARY

Appropriations Committee Serves Notice That Building or Limitation Is Imperative.

Harding Not Consulted.

President Harding was not consulted by the committee with relation to its limitation conference request. The project for negotiations apparently came as a surprise, even to naval officials. It was originated by Chairman Kelley of the naval appropriations sub-committee. The chief reason prompting Mr. Kelley to propose a new naval conference was understood to have been the light cruiser programme recommended by the inval general board. No mention of this is included in the published copies of committee hearings on the bill. The programme trainings on the bill. The programme parity with other navies in cruisers, included 16 new light cruisers with other navies in cruisers, included 16 new light cruisers with the thousand of the Washington treaty and to cost \$158,690,090.

Administration officials who were closest to the Washington arms contained as soon as possible, and Linn county agreed to maintain the present structure across the williamente river for the life of the building time triver for the life of the williamente river for the life of the williamente river for the life of the building to the support of its the farmers and by labor. He emphasized the support of it by the farmers and by labor. He emphasized the national defense of the support of it by the farmers and by labor. He emphasized the national defense produced on the state map to fit by the farmers and by labor. He emphasized the support of it by the farmers and by labor. He emphasized the national defense propose a new naval conference with the state map to connect the west side highway and seven or ten years hence, the committee workrooms.

Senator Jones in concluding his opening statement on behalf of the shipping bill, which he began yesting the support of it by the farmers and by labor. He emphasized the national defense propose a new naval conference was understood to have been the light cruiser propose a new naval conference was understood to have been the light cruiser propose a new naval conference with the propose

Agreement Basis Lacking.

The conference, it was pointed out in prolonged discussions, had found no basis of agreement possible on these points or as to fighting alreafer. The French position at the conference in opposition to limiting submarine floets, it was added, brought a specific reservation by British delegates of the right to build anti-submarine eraft, such as light cruisers and destroyers, without restriction save as to the maximum size of cruisers, 10,000 tons, and limitation of the maximum size of guns they could carry to 5-inch weapons.

In addition to the new cruiser

as the commission desires to close up gaps.

Sakeson county asked for a joint meeting of the commission and feducate on the crater lake nighway between Prospect and Medford. The meeting may be arranged this week.

Several Deschutes county matters were taken under advisement for a few days, among them being the section of The Dalles-California highway from Allen ranch south. This has been held up more than a year because of the prospect of the Benham Falls Irrigation reservoir being built, in which case the loca-

weapons. In addition to the new cruiser programme the committee is known to have been informed of the general board's recommendation that a start be made on modernizing the pre-Juliand battleships of the may, the point being made that Great Britain has already remodelled to a large extent to increase gun range and deck protection her capital ships and deck protection her capital ships
to be retained under the treaty. The
American modernization project
would cost in the neighborhood of
\$60,000,000, it has been estimated. If

Precedent Is Sought.

near future, Chairman Kelley turned to the precedent of the accepted capital ship ratio in search of a way to avoid such outlays. The request to the president was blaced at the very end of the 55-page naval bill. It reads:

"The president

at the very end of the 55-page naval bill. It reads:

"The president is requested to enter into negotiations with the governments of Great Britain. France, Italy and Japan with the view of reaching an understanding or agreement relative to limiting the construction or all types and sizes of gub-surface and surface craft or 10.000 tons standard displacement or less and of aircraft."

The suggestion was made by some members of the house that the paragraph might be subject to a some members of the house that the paragraph might be subject to a point of order and hence go out into the house. It was indicated, however, that there was every reason to helieve the senate would put it back into the bill, which in the shape of a conference report would bring it before the house, to be voted up or down. voted up or down.

Expense Declared Great.

Expense Declared Great.

It was said by committee friends of the Kelley proposal that the saving in capital ship expenditures under the arms treaty would be more than offset in the building of lighter vessels of a size permitted by the treaty, and that this situation possibly prevailed as to other participating nations.

The bill will be taken up tomorrow, and while the disarmament

row, and while the disarmament from is not expected to be reached before Thursday at the carliest, Mr. Kelley, in charge of the bill, will ex-piain at the outset the nature of the request and give his reasons for

the request and give his reasons for the proposed step.

Approving the committee action, Represent.tive Byrnes, Sent'i Caro-lina, ranking democrat of the sub-committee, said today that while the actini naval cost next year would reach \$225,000,000, the budget of the British navy this year, in-cluding the colonies, was \$235,000.000.

"These figures show the neces-sity," said Mr. Byrnes, "for the pro-vision requesting the president to call another conference for the limi-tation of naval armament not in-cluded in the recent conference." When the naval bill, with its dis-armament provision as prepared by Mr. Kelley's sub-committee, was

armament provision as property was presented to the full app opriations committee, members it was approved without a word of discussion on that point.

other important road project

eral other important road projects which are in grave danger of not materializing for years owing to the attitude of the law-making body at Washington, D. C. Oregon City and the highway commission locked horns yesterday. The commission has selected Seventh street as a route through the town because it is safer and for a number of other reasons. Oragon City—or, rather, the mayor and Chris Scheubel—object and insisted yeaterday that the route would have yeaterday that the route would have esterday that the route would have be go on Fifth street or there wouldn't be any assistance offered

wouldn't be any assistance offered by the city.

The commission had agreed, if the Seventh-street route was financed, that the state would take care of the Pacific highway from Caneman to the city limits. When the com-mitte from Oregon City resterday afternoon laid down the ultimatum that the route had to be Fifth street or nothing, the commission withor nothing, the commission with drew its offer of assistance and in

WASHINGTON, D. C. Dec. 13.—
(By the Associated Press.)—Bruin notice that the United States cannot evoid a new mayal programme in swift cruisers and fleet submarines unless treaty limitations are extended to she craft was served by the house appropriation bill.

A six-line provision placed in the shill by the committee requested Pressland and the swift of the successors of the submarines today in reporting the \$223,806,535 mayal appropriation bill.

A six-line provision placed in the shill by the committee requested Pressland Britain. France, Japan and lialy for such an extension of the treaty, limitation of aircraft to be finculated.

A committee report said large cruisers and submarine programmes were planned abroad, adding.

"In other words, competition in on again in the single direction to which the unratified agreement (the Washington mayal treaty) does not extend, and if it be allowed to see on machesked, the pures strings again must be relaxed and this government, like all others, will be constrained to launch a new programme to the extent necessary to keep us at least abreast of any of the other powers."

Harding Not Consulted.

Harding Not Consulted.

Administration officials who were closest to the Washington arms conference deliberations expressed the to prepare a design.

No progress was made by the Gilliam county delegation asking for competiations to limit in accordance with the "5-5-3" or some other ratio the size of cruiser and submarine fleats.

Agreement Basis Lacking.

The conference, it was pointed out in prolonged discussions, had found in prolonged discussions, had found in prolonged discussions, had found meeting of the commission and fed-

being built, in which case the loca-tion of the road would have to be changed.

DON'T LOSE ANOTHER HAIR! 35-cent "Danderine" will Save Any Man or Woman's

Hair-Delightful Tonic-See Dandruff Go!

Hurry! It's your duty! Each day you see a little more hair coming out and you are making no effort to avoid baldness. What a pity. Falling hair means your hair is weak, sick, — possibly dandruff is strangling it, or the hair-root pores in the scalp are not firm and tight, thus wasting the hair-growing oils. Danderine almost instantly stops lots of it.—Adv.
