

**VALUATION HEARING ENDS**

CITY AND COMPANY PHONE EXHIBITS SIMILAR.

Difference Develops on Inclusion of Properties Finished but Not in Use June 30.

OLYMPIA, Wash., Dec. 20.—(Special.)—With agreement between attorneys and with the department understanding that further valuation matters not covered here may be brought up in the first hearing on rates of the Pacific Telephone & Telegraph company, proceedings in the valuation hearings which opened here Monday were rushed to a close this afternoon to permit telephone company officials and others who had come some distance to reach their homes before Christmas.

Today's proceedings included the introduction of exhibits prepared by special engineers and accountants employed by the cities of Seattle and Spokane and the concluding valuation exhibits of the department's engineering and accounting forces and examination of the men who prepared them. In every respect as to basic figures the city and department exhibits were similar to those prepared by the company engineers, the largest discrepancy noted in the entire state being only 24 cents.

The point of difference between important department and city exhibits and those of the company was upon inclusion of new properties completed but not in use on June 30, 1932, the date upon which all exhibits were based. Department engineers and city engineers and accountants agreed that a large portion of the new office building in Seattle, several new exchanges in that city, the new machine switching equipment and other property not in actual use should be excluded from the rate base as of that date.

**BOISE TO CENSOR FILMS**

Women's Clubs of State Sponsor Drafting of Bill.

BOISE, Idaho, Dec. 20.—(Special.)—Proposed film censorship for Boise motion pictures is contained in a bill a Boise attorney is drafting for the women's clubs of this state. **SCHOOL HEAD RESIGNS**

BOISE, Idaho, Dec. 20.—(Special.)—P. J. Zimmers, since August, 1929, superintendent of schools in Boise, has resigned to take a trip abroad and study the European school system, and the board of education has appointed Charles W. Dienst as his successor. The board acted on the resignation, accepting it, and selected the new superintendent of schools today.

**Japanese Forfeits Land.**

OLYMPIA, Wash., Dec. 20.—(Special.)—Despite introduction of an unrecorded deed purporting to transfer property in Pasco occupied by the laundry of E. Shokuta, a Japanese, to the Buddhist Mission society, the property must be forfeited to the state under the constitutional provision prohibiting the holding of land by aliens, according to a decision of Judge John Truax of Franklin county, a copy of which was received today by Assistant Attorney-General Hamann. The state contended that Shokuta was still owner of the land and that under the constitution it should escheat to the state. The action was tried before the passage of the anti-alien land law of 1921.
