WHEAT YIELD OF UMATILLA COUNTY IS BEING INCREASED

Constant Experimentation Under Expert Guidance Developing Types of Grain Most Suitable to Soil in Eastern Oregon.

Grain And How Show At Pendleton

Nursery Plantings To Test Varieties

PENDLETON, Or., Dec. 25.—(Special.)—Wheat farmers of Umatilla county, who produce about 1 per cent of the wheat crop of the world, in the highest producing county in the state of Oregon, are constantly at work to increase production and cut costs, knowing that in large-scale farming the margin of a few cents a bushel means profit or loss.

So clean as the Hybrid No. 125, now used in this county, that little certification is necessary. The county now has large acreages on which certified Jenkins club is grown where two years ago there was no clean Jenkins in the county.

Outstanding of the demonstration work this year, conducted by the county farm bureau, through County Agent Bennion, is the introduction of Hard Federation as a new seed wheat. This grain proved in every test to be the best variety of spring wheat where there is not sufficient rainfall to raise the heavier grains.

WACO, Tex., Dec. 25.—Judge Richard Kimball, 77, is dead at his home here. His father, Richard B. Kimball, was one of the organizers of the Galveston, Houston & Henderson railroad. Judge Kimball was a wealthy farmer.
