Psychology," speaks on almost every page of the unconscious or beonacious mind. "We lay folks," said the Congre-

ntional minister, "needn't enter nto this battle of words. We can be content with uttering the simple truth that we have larger minds than we are aware of. Our minds. discovered but that we haven't ex-plored. We may not have dual minds

as we have two eyes and two ears and two lungs. But there is more of our minds than we work. A as we have two eyes and two ears and two lungs. But there is more of our minds than we work. A vast area of mental activity exists outside of our awareness, and Emile Coue says 'get the unconscious mind to accept and assimilate the regenerative idea and that idea gains tremendously in power.' Attention is Necessary.

"To cultivate an acceptive mind e must pay attention to an idea. Attention is the power of the mind by which the focus of the conscious-It is the mind resting upon an idea to the exclusion of all other ideas. Attention can be selective. We can the eye. Colorful and strongly decorative can seak in its values; we can ab acting is and panels are appropriate for the modern vein of decoration. That is what Emile Coue calls 'absorbing attention.'

Attention is not so much a matter of will as of delight and inter-est. You will recall that Mr. Dooley said to Mr. Hennessy, 'It does not much matter what you study so long as you don't like it.' Mr. Dooley is describing a college education. Profersor Coue declares that Mr. Doo-ley is mistaken. He urges us to clothe our attention with emotion. interest and fondness, and assures us that if we will give time and assimilating thought to accepting a truth, that truth will hold us in the grip of its reality and work won-ders in our bodies, minds and
