Wilberforce, Ohio - Highlighting exercises at Wilberforce University recently was the presentation of 60 undergraduate and two honorary degrees by University President, Dr. Rembert E. Stokes.

The honorary degree recipients, both deeply dedicated to the betterment of mankind, were the Honorable Julian Bond, Georgia State Legislator and Cleveland physician, Dr. Kenneth W. Clement.

Julian Bond delivered the inspiring keynote address to the graduating seniors at the afternoon commencement convocation. A member of the Georgia House of Representatives since 1965, Bond helped found the Student Nonviolent Coordinating Committee in April, 1960. President Stokes conferred upon him the Honorary Doctorate of Laws degree.

Cited as an outstanding civic leader, Dr. Clement received the Doctorate of Humanities degree.

The Wilberforce Alumni Association honored Andrew W. Perdue, a Detroit attorney, with a special distinguished service award given annually for significant professional and financial contributions to the University.

In keeping with tradition, the morning Baccalaureate Service at the University's Jones Memorial Auditorium was a

memorable and moving salute to parents of graduating seniors. The graduates presented a verbal and floral tribute to the ones who had helped them acquire a college education. After presenting their parents with a carnation and a kiss, the graduates sang an anthem of dedication, "I Would Be True."

The Rev. Lyman W. Liggins, pastor of Warren African Methodist Episcopal Church, Toledo, Ohio delivered the address at the morning service. "Miss Wilberforce," Rudane Weston, greeted the many distinguished visitors on behalf of the student body and presented them with corsages.

## Indian control Coalition

A coalition of community controlled Indian school boards was formed quietly early this month, and the group plans a meeting soon—perhaps this week -- with key Bureau of Indian Affairs and Department of Interior officials in Washington, D.C. The primary aim of the proposed meeting is to pressure the BIA into speeding up its contracting efforts with such school boards. The basic purpose of the contracts will be to substitute Indian control for BIA control of federally funded Indian schools.

The founding groups in the coalition were the Wind River Shoshone-Arapahoe Education Association from Wyoming, the Busby School Board from the Northern Cheyenne reservation in Montana, the Red Cloud School Board from the Oglala Sioux reservation in South Dakota, and the St. Francis School Board from the Rosebud Sioux reservation in the same state. The group will also seek support from the Lone Man Day School Board (also from the Oglala Sioux reservation), the Miccosukee school board from southern Florida, the Ramah school board from the Navajo reservation in New Mexico, and possibly others as the concept spreads.

**Mary McLeod Bethune**  
(1875-1955)—Educator

Someone once said to Mary McLeod Bethune, "Put down that book, girl... you know you can't read!" She never forgot that experience and she did learn to read.

Later, she devoted her life to the teaching of the uneducated Negroes of the South. She founded a school in Florida, now known as Bethune-Cookman College.

President Franklin D. Roosevelt appointed Mrs. Bethune as the Director of Negro Affairs for the National Youth Administration. She was often consulted by the President on other matters and became a close friend of Mrs. Eleanor Roosevelt, another esteemed humanitarian. She founded the National Council of Negro Women and was its longtime first national president.

disproportionately large effects. Poor people can't afford frills and everything they buy is a necessity. And it's often all subject to a sales tax. But wealthy people, although they buy more, have no sales tax, so such taxes eat up a far lower percentage of their income.

## Hawaiian studies program created

In recent years, a new pride and identity has affected such groups as blacks, Chicanos, Indians, Puerto Ricans, white ethnic consciousness. For example, within the last few years, native Hawaiians—who number only a few thousand—have been protesting bitterly about the way their islands were taken from them, and they have contended that the process continues today. They have expressed a renewed pride in native Hawaiian culture, and have demanded that others acknowledge the validity of that pride. In apparent response to such attitudes, the University of Hawaii has announced a new Hawaiian Studies Program, which is the first of its kind for the young Hawaiian islanders (although the university has a Micronesian studies program). The Hawaiian program will concentrate on Hawaiian languages, history, music, sociology, and even botany.

**Elijah Graham**  
GRAND MASTER OF THE M.W. PRINCE HALL GRAND LODGE OF OREGON ALONG WITH JOHN W. WISEMAN, R.W. GRAND LECTURER, AND JAMES L. WASSON, R.W. GRAND SECRETARY, HAVE JUST RETURNED FROM GREAT FALLS, MONTANA, WHERE THEY ISSUED A CHARTER TO NORTHERN LIGHT LODGE #8. THE NEW LODGE WAS CONSECRATED DEDICATED, AND CONSTITUTED ON OCTOBER 23, 1971 IN GREAT FALLS, MONTANA AND THE NEW OFFICERS WERE INSTALLED INTO A REGULAR LODGE, THE NEW OFFICERS OF THE LODGE ARE RUSSELL PARKER, WORSHIPFUL MASTER WILBERT J. BROWN, SENIOR WARDEN AND JOSEPH W. SOSTHAND, JUNIOR WARDEN LEO LE BLANCE, SECRETARY AND ARTHUR JENKINS, TREASURER. AFTER A SPLENDID MEETING, A BANQUET WAS GIVEN IN HONOR OF THE GRAND MASTER AT THE SERVICE CLUB, TWO HUNDRED AND FIFTY PEOPLE WERE IN ATTENDANCE.

And all the while, his tenants can't take these deductions on their taxes at all. The irony really comes when their rents are pegged to included mortgage interest payments that their landlord can deduct but which they can't.

Social security taxes are often thought of as a simple pension plan payments, but they are taxes too, and they strongly discriminate against the poor. Every worker covered by social security pays 5.2 percent of the first \$7,800 of his income, a rate scheduled to raise. So people making under \$7,800 pay a tax on everything they make, while those earning more don't.

City residents pay taxes to state governments that often use them for rural and suburban communities that are more affluent. So we hear all about the financial crisis of the cities, while commuters from richer suburbs work in the city and use its resources without paying their fair share of the costs.
