

THE PALE LEG is a prime scene stealer on the spring fashion beat. Here, a soft turquoise shade in Brief Top panty hose by Burlington blends subtly with a turquoise sweater of pigtail yarn and a matching wrap skirt trimmed with white leather. A scarf of turquoise and white, and white shoes complete the tone-on-tone harmony. The Brief Top panty hose design, just a smidgen of panty with high sided legs is a star performer with all spring's short, leg revealing skirts.

Garment factory financed

A \$300,000 loan agreement was signed today at National Bank of North America providing financing for the first significant all-Black owned and operated company in the garment industry.

The company, to be known as Biella, Ltd., is being headed by Marques Haynes who was a very successful entrepreneur with his own Fabulous Magician basketball team. He has since sold the team to the Harlem Globetrotters and is now starring with that group. He has also successfully operated other business enterprises.

"This loan," said National Bank of North America executive vice president Lawrence A. Meyers, "is the largest ever made by our Business Opportunity Loan Division and is a major step forward in our effort to provide financing for minority group businessmen seeking to enter the mainstream of American business life."

Marques Haynes has been successful as an athlete, sports promoter, and in other business endeavors. I believe that with Biella, Ltd., he will create a viable enterprise in the garment industry.

Associated with Mr. Haynes in this enterprise is a leading Black designer and a Black sales executive who will head up the firm's selling efforts. Both are experienced and well known in the garment industry.

Biella's design and marketing of women's apparel will be directed at inner city department stores. The company will focus its attention on the hundreds of cities that have a substantial Black population.

THE FAMILY LAWYER

Contract for Lifetime Care

"You get everything I own. In return, I get complete care for the rest of my life."

In effect, this was the agreement that an elderly widower made with a retirement home. And when he died a few years later, the management put in a claim for his remaining assets.

However, the man's relatives went to court with an objection.

"This was gambling, pure and simple," they argued. "No one knew how many years he would live. No one knew how much property he would have when he died. And gambling contracts are illegal."

But the court saw nothing illegal about the contract. Finding it no more of a gamble than an insurance policy, the court said the law had no objection so long as both parties understood what they were doing.

In most cases, contracts for lifetime care have been upheld as lawful and reasonable. Courts say they serve a useful purpose for those who want the security of a safe haven in their declining years.

Nor does the contract become invalid just because it happens to work out better for one side than the other.

In one case, a retirement home got a financial windfall because a relatively young resident, after paying a large membership fee, died within a few months.

In another case, a retirement home tried to back out of its contract after paying hospital expenses for an ailing resident for more than four years.

But in both cases, despite complaints, the courts ruled that a deal was a deal and had to be carried out.

Still, a contract might be invalidated by deception. One retirement home carefully avoided telling an incoming resident that he was signing over all of his property.

In this case, after the man died, his property was held to belong to his children, not to the home. The court said it could not fairly enforce an agreement on which there was no "meeting of the minds."

Women of the world, unite

On March 8, 1908 women in New York marched for the right to unionize and the right to vote; the day was declared International Women's Day in 1910. Today women are struggling for childcare, implementation of the Supreme Court decision on abortion, and passage of the Equal Rights Amendment. In celebration of International Women's Day the Portland International Women's Day Coalition is planning two days of events focusing on issues of importance to women.

Schedule of Events

Wednesday, March 7. Have Women Always Been the Second Sex? Evelyn Reed, Internationally known feminist anthropologist, author of *Problems of Women's Liberation, An Answer to the Naked Ape*, etc., Room 338, Smith Center, PSU, 12:00 noon.

Working Women and History of International Women's Day. Artha Adair, A m a l g a m a t e d Clothing Workers; Julia Rutilla, Women's Auxiliary, I.L.W.U.; Room 338 Smith Center, PSU, 3:00 p.m.

The Childcare Crisis in Oregon. A Public Hearing. Helen Gordon; Andy Wiselogle, Staff of Latch Key Daycare Program; Beverly Van Tassel, President of

Parent's Advisory Board, YMCA Latch Key Childcare Project; Marsha Andrews, Metropolitan Area 4-C Council; Theano Mouritides, International Women's Day Coalition (Moderator), Room 338, Smith Center, PSU, 7:30 p.m.

Thursday, March 8. Portland Women's Groups - Rooms 139 B and C, Smith Memorial Center. Tables and Information Booths. Informal discussion, 10:00 a.m. - 4:00 p.m.

Abortion Rights - Meaning of the Supreme Court Decision. Carol Hewitt, Attorney, Member of Equal Rights Alliance; Rita Moran, Oregon Women's Abortion Tribunal Committee. Smith Center, Room 327, 12:00 noon.

Presentation by PSU Women's Union - Women's Studies Group. Room 327 Smith Center, 3:00 p.m.

No Cutbacks in Child Care Picket Line at the Federal Courthouse, 6th and Main to protest cuts made by the federal government in social services. 4:30 p.m.

Women's Potluck Dinner - International Speakers - Bring food for yourself and a friend (or donation). An evening of discussion with women from around the world, music, poetry and sisterhood. Women only.

Men are welcome at all events except the Thursday evening potluck. Free childcare will be available except during the Thursday

picket line, when parents are encouraged to bring children. Call 234-8703 or 229-4474 for further information.

Science building holds open house

One of the Northwest's foremost science education facilities will be open to the public Sunday, March 4, when Portland State University hosts an "action" open house in its new Science II Building from 2 to 5 p.m.

The \$7 million, 219,000 square foot contemporary structure, completed in fall, 1971, is headquarters for PSU's College of Science, a nine-department complex with offices, laboratories and classrooms in the adjacent Science I Building and two other structures on campus.

All laboratories will be in operation and classes will be

in session during the open house, according to Assistant Dean Erwin F. Lange. Special displays, demonstrations and films are also scheduled, and students may discuss educational and career goals with PSU faculty members and students.

Special features will include a glass-blowing demonstration with free souvenirs; laboratory experiments; with lasers, computers and the LEM lander; air-track experiments; "Physics for Fun"; a demonstration of the electron microscope; and displays of fossils, rocks, minerals, rock saws and a student-built seismograph.

The Science II Building itself is an attraction. Designed for flexibility, it has demountable walls between laboratories and movable partitions within the rooms, so they can be altered at will. Pipes and conduits for

utilities are built into the demountable walls, with connections capped off at intervals in the main corridor walls.

The seven-story building is entirely ventilated by fresh air. Axial flow fans can circulate 285,000 cubic feet of air per minute - enough to heat or cool 250 average-size homes. An 869-ton air conditioning system can remove enough warm air in 24 hours to melt 869 tons of ice.

Tours of these climate control facilities will be conducted at hourly intervals during the three-hour open house.

Both the Science II and Science I buildings are located on the northwest corner of PSU's downtown campus. The Earth Sciences Department across the park blocks in Cramer Hall will also be open to visitors.

Hot Buttered Rum

Keep off the chill this winter with hot drinks old and new.

Hot Buttered Rum is a traditional favorite, but the following recipe is a newly worked out version which gains in flavor from the addition of dark rum.

If preparing the drinks for company, you can have the mugs set out with their spices in advance, then complete the drinks with the addition of warmed rum and boiling water.

Hot Buttered Rum
2 whole cloves
2 whole allspice
1 short stick cinnamon

1 tsp. sugar
Boiling water
1 1/2 oz. light rum
1/2 oz. dark rum
1 tsp. butter or margarine
Ground cinnamon, optional.

Put the cloves, allspice, stick cinnamon and sugar in a mug or glass and add a tablespoonful or two of boiling water. Combine the rums in a small saucepan and heat but do not boil. Pour rums into spice mixture, filling mug or glass with boiling water and immediately add butter. Sprinkle with ground cinnamon, if wanted. Makes 1 serving.

Every Contest Entry Wins OMSI Pass

Enter PGE's Coloring Contest

Join PGE's Junior Watt Watchers

PARENTS, GRANDPARENTS, TEACHERS - URGE YOUR YOUNGSTERS TO

Watt Wasters leave the TV running when nobody is watching it.

Watt Watchers turn off the TV when nobody is going to watch.

Color Mr. Watt Waster and Mr. Watt Watcher. Fill in coupon and mail entry to PGE.

RULES: Youngsters from 5 through 12 years of age are eligible to enter PGE's Junior Watt Watcher's Coloring Contest. There are three categories — 5 through 7, 8 through 10 and 11 through 12 year olds. There are six different cartoons in the series — but you only have to color one. Each age group and each cartoon subject will be judged separately and best entries in each age category will receive award ribbons and will be displayed in the Hall of Electricity at OMSI. All entries become the property of Portland General Electric Company. Sorry, no entries can be returned. Decision of the judges is final. Children of PGE employees and its advertising agency not eligible to win. PGE is not responsible for entries in transit and entries must be postmarked before May 1, 1973 to be eligible. Entry blanks also available at PGE offices.

All entries receive a PGE Junior Watt Watcher's Kit.

Portland General Electric Company
P.O. Box 1450, Portland, Oregon 97207

Here is my Coloring Contest entry. Send me my free Junior Watt Watcher's Kit.

I am not entering the Coloring Contest so will not be eligible for an award, but send me the free Junior Watt Watcher's Kit. I am interested in conservation.
