

FIRST CRYSTALS GROWN at Wacker Siltronic's new plant in Northwest Portland are inspected for shipment by Executive Vice President Dr. Hans

Herrmann (third from left) and some of the students undergoing training. Full production is anticipated to start this summer.

Wacker ships first crystals produced

Wacker Siltronic Corporation has shipped the first crystals grown at its new manufacturing plant site in Northwest Portland, according to Executive Vice President Dr. Hans Herrmann.

The crystal shipment was a milestone in more than one way for Wacker Siltronic. It was packed one year to the day when Wacker Siltronic began training its first instructors. The crystals were also grown and inspected by some of the 400 students undergoing training for technical jobs at Wacker Siltronic.

The students are learning the various phases of crystal growing and wafer production from Wacker-trained instructors at Portland Community College and at the Wacker plant site.

Wacker's \$60 million manufacturing plant is approximately three-quarters completed with full production anticipated to start this

summer. Equipment is being installed and tested on a daily basis at the plant site where hyperpure silicon single crystals and polished wafers will be produced.

Training of the instructors in the Wacker program began in February of 1979, according to Herrmann. "We're very pleased with the progress of the program to date," said Herrmann.

FINANCIAL PLANNING FOR LIFE'S TWO GREATEST RISKS:

1. Living too long and going broke.
2. Dying too soon and leaving your family broke.

Workshop targets drugs

A workshop on "The Impact of Drugs on Black and Poverty Communities," will be held Saturday, February 23rd from 10-4 P.M. at the King Neighborhood Facility, 4815 NE 7th.

Robert Phillips, Chairperson of the Northeast Police Precinct Council is one of the featured speakers at the gathering. He will be talking on the history of drugs and alcohol abuse in Black and poor families. Also speakers from the Portland Police Special Investigation Division and the House of Exodus will be hosting presentations. Additional speakers from drug and family counseling agencies as well as churches will also be available.

Lt. Tom Potter of the Crime Prevention Division and Sharon McCormick, Inner Ne Neighborhood Against Crime Coordinator, will also be present to talk about crime prevention issues related to drug use.

Anyone wishing to sign up for pre-registration should contact Sharon McCormick at 287-3692. The workshop registration is scheduled from 9 to 10 A.M. on Saturday, and there is no workshop charge. Lunch will be provided as a courtesy of the Portland Police Bureau Crime Prevention Division.

THE SIXTH GRADERS AT McFADDEN ELEMENTARY SCHOOL HAVE BEEN GIVING YOUR FUTURE A LOT OF THOUGHT.

We asked you to send us your electric energy ideas and we were proud to receive thousands of individual suggestions. But imagine our surprise when we found a letter from every sixth grader at McFadden Elementary School, McFadden, Wyoming. Including one from their

teacher, Mrs. LeBeau, who is clearly opposed to waste anywhere. She added that she enclosed all the ideas "in one envelope to save postage and extra handling by the post office."

Obituary

Will M. Crockerham, a resident of 875 N.E. Jarett, died February 12, 1980 at Mt. Tabor Care Center. He moved to Vanport, Oregon from Warren, Arkansas in 1942.

He was born August 18, 1888 in Lacy, Louisiana. He was quite active in religious work, having been superintendent of the Sunday School at three different churches; Mt. Carmel Baptist, Warren Arkansas; Vanport Community Church, and Vancouver Avenue First Baptist Church. He also served on the Deacon Board of these churches. He was chairman of the finance committee at Vancouver Avenue Baptist Church for many years.

He was a veteran of World War I. He worked as a scaler in the shipyards during World World II and was employed in the maintenance department of Multnomah Junior College from which he retired.

Funeral service were held at Vancouver Avenue Baptist Church on February 19, 1980. Interment was at Willamette National Cemetery.

Survivors include the daughter Mrs. Sybil Daniels of Kansas City, Missouri; brothers Leonard and Ellis Crockerham of Gary, Indiana and Alex Crockerham of Warren, Arkansas; sisters Myrtice Richardson and Elizabeth Peoples of Cohoma, Mississippi; two grandsons, one great grandson and numerous nieces and nephews also survive.

PEGGY BARTLEY

We were impressed. By the ideas and by the fact that these youngsters cared enough to give electric energy problems some serious thought, and by the degree of commitment they showed to conserving energy.

Because of their response, our panel of judges has chosen Mrs. LeBeau's class for special recognition. We're sending each and every member a special pin and a handsome certificate to hang on their wall. You, too, Mrs. LeBeau.

We could all learn a thing or two from these concerned sixth graders. And, to continue our electric energy education, the people at Pacific Power are committed to doing everything we can to help you with the electric energy shortage. We provide expert Energy Consultants for our customers, free booklets with energy-saving ideas, and in some states, special financing for weatherization improvements.

You can help, too. Send us your electric energy ideas. We'll send you this special pin and a certificate. Send your ideas to: Energy Ideas; Pacific Power & Light; Box 155; Dept. D; Portland, Oregon 97207.
