

Portland Observer JOB FINDER

ENGINEERS

Tri-Met, Portland, Oregon, is soliciting applications on their Light Rail Transit (LRT) Project staff. Openings exist for principal level engineers with engineering degrees and seven years experience relating to design or applications engineering, project control, construction management and/or maintenance engineering in rail transit, power distribution, electro-mechanical equipment or related fields. These positions are available after September 1, 1980.

MECHANICAL ENGINEER

Develops the functional capabilities of the LRT maintenance facility. Analyzes and reviews design of LRT vehicle and fixed plant equipment. Solves mechanical design problems with emphasis on maintainability and reliability. Salary ranges between \$27,406 to \$30,146, depending upon qualifications.

ELECTRICAL ENGINEER

Specifies and coordinates design and installation of the LRT power electrification system. Develops maintenance and quality control procedures, reliability enhancement programs and designs as appropriate for the LRT electrical equipment including track circuits and the electromechanical sub-systems of the LRT vehicle. Salary ranges between \$27,406 to \$30,146, depending upon qualifications.
