DESIGNERS

Lockheed Aircraft Service Company... the nation's oldest aircraft maintenance and modification company. Needs qualified individuals for new and follow-on aircraft repairs and modifications.

SR. DESIGNERS, MECHANICAL

With major aircraft structural modification experience to permit installation of a wide variety of mechanical and electronic equipment. Will include originating, planning, scheduling and developing mechanical design to meet basic specification requirements and good design criteria.

DESIGNERS, MECHANICAL

For the design of new and moderately complex aircraft related mechanical equipment and the modification of existing equipment. Will include preliminary calculations as required by design problems and evaluation of purchased components. Make detailed layouts and drawings as required.

SR. DESIGNER, AVIONICS

Will organize and be responsible for over all design of a major component, a functional system, or a major portion thereof, for a new or modified aircraft working from design directives and preliminary design data. Should be familiar with basic aircraft subsystems such as TACAN, IFF, Communications, Navigation, etc.

DESIGNER, AVIONICS

Will create and/or develop circuitry for aircraft related communications and navigation equipment. Will develop designs into workable systems for preparation of schematic layouts and wiring diagrams.

DESIGNER,

Will convert design concepts into detailed design of electronic, electrical, mechanical or structural components and subsystems to provide engineering drawings that enable production of the equipment. May modify existing design concepts to meet revised design parameters, adapt design into similar models, or provide for retrofit of previous units.
