The work contemplated consists of construction of approximately 2,500 linear feet of 42 inch outfall sewage effluent line, a reinforced concrete distribution structure, approximately 2 miles of maintenance road, and approximately 1.5 miles of soil dikes. Construction of the dikes will require the excavation and compacted placement of approximately 135,000 cubic yards of soil and excavation, crushing and placement of approximately 18,000 cubic yards of rock for rip rap and road surfacing.

Plans and Specifications may be examined in the office of the Engineer, Bend Engineering Consultants (BECON), 61360-5 South Highway 97, Bend, Oregon. A copy of the Documents may be obtained at the Engineer's office upon payment of \$20.00 for each Document. No refunds will be made.

Before a contract will be awarded for work contemplated herein, the Owner will conduct such investigation as is necessary to determine the performance record and ability of the apparent low Bidder to perform the size and type of work specified under this Contract. Upon request, the Bidder shall submit such information as deemed necessary by the Owner to evaluate the Bidder's qualifications.

Each Proposal must be submitted on the prescribed form and accompanied by a certified check or bid bond executed on the prescribed form, payable to the City of Bend, Oregon, in an amount not less than 10 percent of the amount bid.

The successful Bidder will be required to furnish the necessary additional bond(s) for the faithful performance of the Contract, as prescribed in the Contract Document.

Bidders on this project will be required to comply with the provisions of the President's Executive Order No. 11246 and requirements issued thereunder. The requirements for Bidders and Contractors under this Order are specified in the Contract Documents.

The bidder's attention is directed to the provisions of these documents that relate to the utilization of minority business enterprises during the performance period of the Contract. The Environmental Protection Agency Region X has adopted the following goals of this contract:

- Ten to fifteen percent of construction work (on a dollar basis) shall be performed by minority subcontractors.

- Ten to fifteen percent of construction supplies and materials shall be procured from minority-owned suppliers.

Prior to award of a contract, EPA will review the proposals with respect to the bidder's degree of compliance with the above goals; a low bidder who has not achieved these goals must demonstrate to the satisfaction of the Director, Office of Civil Rights and Urban Affairs, EPA Region X, that the goals are not attainable on the Contract work.

The attention of Bidders is directed to the federal and state government requirements and conditions of employment to be observed and minimum wage rates to be paid under the Contract.

Any Contract awarded under this INVITATION TO BID is expected to be funded in part by a grant from the United States Environmental Protection Agency. Neither the United States nor any of its departments, agencies, or employees is or will be a party to this INVITATION TO BID or any resulting Contract.

Before a Contract will be awarded, compliance with all EPA requirements specified in the Contract Documents will be subject to EPA review and approval.

For information concerning the proposed work, contact Bend Engineering Consultants, telephone 503-382-4114.

A pre-bid conference for representatives, Bidders, and potential Bidders will be held at 1:00 p.m., on the 20th day of October, 1980 at the City Commission Room, 720 Wall Street, Bend, Oregon.

The Owner reserves the right to reject all Proposals or any Proposal not conforming to the intent and purpose of the Contract Documents, and to postpone the award of the Contract for a period of time which, however, shall not extend beyond 45 days from the bid opening date.
