WE WANT YOUR VIEWS...

ON OUR PROPOSED NEW RATES.

We're Bonneville Power Administration. We wholesale Federal power in Washington, Oregon, Idaho, western Montana, and parts of California, Nevada, Utah and Wyoming. And we operate a high-voltage transmission system for both Federal and non-Federal power.

Both wholesale power rates and transmission rates will have to go up on July 1, 1981. To cover operating costs and scheduled repayment of Federal investments in Northwest generating and transmission facilities, we'll need more revenue than present rates would provide.

We want your views on our new rate proposals. Please understand. We at Bonneville don't set the rates that you, the consumer, pay for electricity. But what we charge your local utility is a factor in the rates you pay. That's why we urge you to get involved.

Here's what you can do:
 Send for more information (see request form) or call toll free

in Oregon, 1-800-452-8429; in other Northwest states, 1-800-547-6048. Attend one or more public hearings. Submit oral or written comments at the hearing, or send us your written comments. All comments received before the close of hearings will be considered.

What you say counts.

Bonneville Power Administration
