TEXT OF MEASURES FOR PORTLAND SCHOOL DISTRICT NO. 1

PORTLAND SCHOOL DISTRICT NO. 1
Held in the Counties of Multnomah, Clackamas and Washington, State of Oregon.

26-14 PART 'A' OF ONE YEAR LEVY MAINTAINING CHILDREN'S BASIC EDUCATION
QUESTION: Shall Portland School District be authorized to levy \$4,008,291 outside its tax base approved back in 1968?
PURPOSE: The levy in Part 'A' will be combined with the proceeds of Part 'B' to provide general operating funds to educate approximately 52,025 Portland school children through the twelfth grade during school year 1981-82. Part 'A' provides \$4,008,291 and Part 'B' provides \$21,773,623 to meet the total projected budget deficit of \$25,781,914. The money will be used for operating expenses such as books, supplies, heating, cleaning, building maintenance, classroom programs, and personnel.
EXPLANATION: Under Oregon law, the School District must present its levy request by two separate items - the 'A' and 'B' ballot system. Only those funds on the 'A' ballot qualify for partial state financing.
The levy package represents the funds needed to maintain the quality of education that Portland's children have been receiving. The existing tax base was last reestablished by the voters in 1968. Because of inflation and expected loss of state school support funds, this measure is essential to prevent a serious decline in the quality of education for Portland School children. If this measure is approved, \$96,373,267 of the taxes levied will be financed partially by the State of Oregon, which will result in an estimated tax rate of \$8.77 per \$1,000 of true cash value, exclusive of serial levies for capital construction, but inclusive of the levy under the existing tax base. Under the present law, the partial state payment will reduce this estimated rate on homesteads to \$6.14. The comparable 1980-81 rates were \$8.51 and, on homesteads, \$5.96.

26-15 PART 'B' OF ONE YEAR LEVY MAINTAINING CHILDREN'S BASIC EDUCATION
QUESTION: Shall Portland School District be authorized to levy \$21,773,623 outside its tax base to meet projected deficit caused by inflation?
PURPOSE: The levy in Part 'B' will provide the necessary funds in addition to the existing tax base and Part 'A' to meet the projected 1981-82 deficit for the education of Portland's children. Part 'B' represents \$21,773,623 of the necessary levy funds and will be paid from property taxes without state financing. The money will be used for operating expenses such as books, supplies, heating, cleaning, building maintenance, classroom programs, and personnel.
EXPLANATION: Under Oregon law, the School District must present its levy request by two separate items - the 'A' and 'B' ballot system. Only those funds on the 'A' ballot qualify for partial state financing.
The levy package represents the funds needed to maintain the quality of education that Portland's children have been receiving. The existing tax base was last reestablished by the voters in 1968. Because of inflation and expected loss of state school support funds, this measure is essential to prevent a serious decline in the quality of education for Portland School children. If this measure is approved, \$21,773,623 of taxes will be totally financed by local taxpayers without any partial state payment and will represent an estimated increase in the tax rate of \$1.98 per \$1,000 of true cash value. The balance of the District's levy, \$99,873,264, will be partially paid by the state.

Portland's Black United Front,
in conjunction with the National Black Front, calls together the Black community and all concerned Portland citizens to participate in
