All bidders must be willing to comply with the applicable provisions of the Equal Employment Opportunity Act of 1972 and the Civil Rights Act of 1964, as amended:

1. The Offeror's or Bidder's attention is called the "Equal Opportunity Clause" and the "Standard Federal Equal Employment Specifications."

2. The goals and timetables for minority and female participation, expressed in percentage terms for the Contractor's aggregate workforce in each trade on all construction work in the covered area, are as follows:

Timetables: Goals for minority participation for each trade. Goals for female participation in each trade.

Effective 4/7/80: Insert goals for each year 2.4: Insert goals for each year 6.9.

These goals are applicable to all the Contractor's construction work (whether or not it is federal or federally assisted) performed in the covered area. If the contractor performs construction work in a geographical area located outside of the covered area, it shall apply the goals established for such geographical area where the work is actually performed. With regard to this second area, the contractor also is subject to the goals for both its federally involved and nonfederally involved construction.

The Contractor's compliance with the Executive Order and the regulations in 41 CFR Part 60-4 shall be based on its implementation of Equal Opportunity Clause, specific affirmative action obligations required by the specification set forth in 41 CFR 6; 4.3(a), and its efforts to meet the goals. The hours of minority and female employment and training must be substantially uniform throughout the length of the contract, and in each trade, and the contractor shall make a good faith effort to employ minorities and women evenly on each of its projects. The transfer of minority or female employees or trainees from Contractor to Contractor or from project to project for the sole purpose of meeting the Contractor's goals shall be a violation of the contract, the Executive Order and the regulations in 41 CFR Part 60-4. Compliance with the goals will be measured against the total work hours performed.

3. The Contractor shall provide written notification to the Director of the Office of Federal Contract Compliance Programs within 10 working days of award of any construction subcontract in excess of \$10,000 at any tier for construction work under the contract resulting from this solicitation. The notification shall list the name, address and telephone number of the subcontractor; employer identification number of the subcontractor; estimated dollar amount of the subcontract; estimated starting and completion dates of the subcontract; and the geographical area in which the subcontract is to be performed.

4. As used in this Notice, and in the contract resulting from this solicitation, the "covered area" is within the City limits of Cottage Grove, Oregon.

All envelopes must be sealed and plainly marked on the outside showing the name of the bidder, date and time of bid opening, the project name, and the words, "Sealed Bids."

The City of Cottage Grove reserves the right to reject any and all bids.

The City of Portland's Housing and Community Development Program (HCD) has provided significant improvements to neighborhoods with a majority of low and moderate income households. These improvements, including street construction, park improvements, housing rehabilitation, free locks, trees, etc., are funded with Community Development Block Grant funds from the Department of Housing and Urban Development.
