The Declaration of Independence wasn't signed on July 4, 1776 as is popularly believed. It was adopted that day, but most of the delegates didn't sign it until August 2, 1776.

It seems hard to believe, but Montreal, Canada, is further south than Paris, France.

Here's a question that fools a lot of people. What is the southern-most U.S. state? Answer: Hawaii.
