

American State Bank

The Bank that Integration built.

Good banking is more than just a black and white way of doing things.

At American State Bank, it's people of all colors and nationalities working together to offer you greater flexibility and more personal consideration than you'd expect to get anywhere.

In fact, we've earned a reputation for making an extra effort to help businesses which, like ours, were started by individuals with more determination than money. Chinese restaurants. A tennis club in Portland. A Vancouver Plush Pippin owned by a Hawaiian. A Portland construction equipment sales firm.

With a reputation like that, it isn't surprising that American State Bank is getting bigger every day. And so are our customers.
