

NATALIE COLE

Natalie Cole has some secrets about beauty that she has learned from life as a performer.

Beauty Tips From Natalie Cole

NATALIE COLE, a slim, energetic bundle of good sense, declares that life as a performer has also made her something of an expert in skin and hair care.

"There's excitement and glamour in doing concerts, recording sessions and television talk-shows, but the bright lights, the cameras, and the constant travel are punishing," she says. "So while beauty products may begin in a laboratory, the real test is what they do for me every day on the road."

Natalie Cole did not start out to be a beauty expert. "I found that certain methods and products work best for me and my family. And I realized that if they satisfy me and my demanding schedule, they can work just as well for others."

Always conscious of her appearance, Ms. Cole is undertaking a new role this fall. The willowy star will give television audiences her personal beauty tips in commercials for Posner Laboratories, adding a new dimension to her successful career as an entertainer.

"It is a comfortable feeling to know you look your best," she observes. "And when you feel confident and at your best, you actually do look more beautiful."

There is nothing hit-or-miss about the way personalities who are constantly in the public eye groom themselves, and that includes hair, skin, fingernails, and lip coloring. Here are some personal tips from Natalie Cole that can work for everyone:

Hair care: Black women's hair styles vary from natural to curly to sleek. The trick is to match the characteristics and styles of your hair with the appropriate product. For casual sleek styles, Conditioner and Hair Groom will provide lustre, softness and manageability. Coconut Oil Hair Conditioner provides protection against dryness, breakage, and split ends, and adds a blend of sesame and coconut oils for a scent of the tropics. Light Touch conditioner keeps hair lustrous. And women with natural or curly hair styles will do best with Soft Solution.

Lip shades: Deep hues of plum, red, brown, and wine are perfect accompaniments for Black skin tones. When in doubt, think plum or brown for your lips.

Nail care: Hands reveal a lot about your personality. Keep fingernails trimmed and file them regularly. Proportion is the key. Nails should neither be spiky nor blunt. Match your nail enamel colors with lipstick shades.

Facial tones: Blushing products which give a soft, natural look are best. Ms. Cole likes Soft-Blush power blushes from Posner because they are not oily and will not clog skin pores.

Eye shades: Too much eye shadow will distract from the rest of your face. Too little eye makeup tends to make your eyes disappear. Therefore eyeshadow and mascara should be used in moderation. Accent your eyes with fashion shades ranging from plum to pewter.

Shaping Up From Head To Toe

In a beauty and maintenance shape-up program, "great body" starts at the toes, but doesn't stop at the neck. Too often, women ignore what could be their crowning glory — hair. Hair that is soft, textured and full of bounce and body.

One of the easiest ways for Black women to maintain body for full, flowing styles is with a texturizing

relaxer that's designed to remove excess curl while leaving natural body in the hair. The special Natural Body penetrating conditioner keeps hair shiny and healthy-looking all day long.

To get the most from a hair body-building program, Black women should take some extra steps to keep their hair in shape throughout the year.

Great body is the look in hair for Black women everywhere, no matter what the length. And Johnson Products Company is making full-bodied, textured hairstyles possible with Ultra Sheen's Natural Body™ Formula Relaxer. It removes excess curl while leaving hair with plenty of natural texturized body. The relaxer comes in two formulas, regular and mild.

Full-bodied, layered styles are most easily achieved with a texturized relaxer like Ultra Sheen's Natural Body™ Formula from Johnson Products Company. The unique formula is designed to remove excess curl while leaving natural body in the hair.

Wigs Of All Kinds

If you have wigs on your mind, the wigs shown above are just some of the wig styles you will be able to pick up at your local wig shops in and around town.

You're on your way to the top in Makin' It by Billie Wigs. Soft curls frame the face in a contoured shape that creates a natural hairline. It's a fashionable look for work or play. Made of Kanekalon Artelle.

Copa is a sensational look for disco glamour with shoulder-length curls, a smooth, finger-waved crown and short curly front. This wig can be styled to the back or to one side for dramatic emphasis. From the Billie wig collection.

Opera Auditions

Auditions for actors for an upcoming Portland Opera production will be held at the Masonic Temple on Sunday, January 17, beginning at 1 pm. Required are one woman, approximately 25 years old, and several men ranging from 28-50 years of age. Auditions by appointment only! Please call John Haek at 248-4747 for scheduling an appointment.
