**Softlight Shades :**  
The freshest look in windows since mini-blinds.

Crisp horizontal pleats give it the look of mini-blinds. But softer, quieter, easier to operate... raises completely out of the way when not in use. It's amazing to see what Softlight does with sunlight. Depending on which of three materials you choose, it can soften it, diffuse it... even screen the heat and glare from it. Now's the time to see the light at a remarkable price!
