## Second Notice of Public Hearing

Notice is hereby given that a public hearing will be held by the Tri-County Metropolitan Transportation District of Oregon (Tri-Met) at the Portland Building, 1120 S.W. 5th, Meeting Room "D" (2nd floor), Portland, Oregon, at 10:00 a.m., Monday, March 14, 1983 for the purpose of considering projects for which financial assistance is being sought from the Urban Mass Transportation Administration under Section 3 of the Urban Mass Transportation Act of 1964, as amended.

The total project cost is \$5,145,000 of which \$4,116,000 is Federal share and \$1,029,000 is the local share. Projects included in the grant application are:

- 1) Engineering, construction and amenities for street, crosswalk and sidewalk improvements along the light rail alignment on Yamhill and Morrison Streets between 1st Ave. and 11th Ave. in downtown Portland. The total project cost is \$5,000,000 (\$4,000,000 Federal; \$1,000,000 local share).
- 2) Preliminary engineering to define the elements and assess environmental effects of a Vintage Trolley Project which is generally proposed to be a central city shuttle service to be provided by authentic, fully restored historic streetcars in revenue passenger operation on the Banfield light rail trackage between the Downtown terminal at S.W. 11th Ave. and a special trackage near Lloyd Center. The cost for preliminary engineering is \$145,000 (\$116,000 Federal; \$29,000 local share).

No persons, families or businesses will be displaced by this project.

An environmental review has determined that the changes to the final environmental impact statement for the Banfield light rail project due to these projects do not result in significant environmental impacts and no supplemental environmental impact statement is required.

The projects are currently under review by the A-95 Clearinghouse and will be included in the FY '83 annual element of the regional Transportation Improvement Program.

In keeping with the Banfield light rail project in general, construction along the downtown light rail alignment will address the needs of the elderly and handicapped. Downtown station platforms will be concrete extensions of the sidewalks adjacent to track rights-of-way. Amenities such as widened sidewalks, curb cuts and benches will similarly promote accessibility to light rail stations and cars.

A statement of Tri-Met's proposed charter bus service is available for inspection at the Tri-Met Administration offices.

Tri-Met will not be engaging in school bus operations.

There will be no direct impact on private transportation enterprise by either of the projects.

At the hearing, Tri-Met will afford an opportunity for interested persons or agencies to be heard with respect to the social, economic and environmental aspects of the projects. Interested persons may submit orally or in writing evidence and recommendations with respect to said projects.

A copy of the application for a Federal grant for the proposed projects, together with an environmental analysis and the transit development plan for the same, and statement of proposed Charter service are currently available for public inspection at Tri-Met, Planning and Development Division, 4012 S.E. 17th, Portland, Oregon.
