DATA PROCESSING

Senior Programmer/Analysts Programmer/Analysts Programmers

Rapidly growing EDP Department is accepting applications for Senior Programmer/Analyst, Programmer/Analyst, and Programmer.

Senior Programmer/Analyst applicants must have successful project leadership experience on 2- to 3-person projects of 6 months duration or longer.

Individuals must have a minimum of 4 years experience in a business application systems environment. Technical competence in COBOL, CICS, EASYTRIEVE, TSO, OSJCL, MVS or VS1 shop experience is required.

Senior Programmer/Analysts will

- Perform front-end analysis
- Write user and D.P. specifications
- Perform technical design
- Perform project estimating and scheduling
- Coordinate with multiple users across functional areas
- Write project and operational documentation

Senior Programmer/Analysts will be expected to direct 1 to 2 people or perform the most technically difficult development.

Programmer/Analyst applicants must have a minimum of 2 years experience in business applications systems development and prior experience in COBOL and OSJCL required. Knowledge of CICS, VSAM, ADABAS, and large IBM-like mainframes preferred.

Programmer/Analysts will:

- Perform program design and development
- Gather and analyze information for systems development or modification
- Construct, test, and implement systems and prepare systems operation and user documentation
- Programmer applicants must have training and experience in writing programs using COBOL. Must be competent enough in most phases of programming to work alone, requiring only general direction. Programmers will perform systems analysis, design, program development, and implementation activities involving the development of data processing applications.
