DATA PROCESSING

**Senior Programmer/Analysts
Programmer/Analysts**

Blue Cross and Blue Shield of Oregon, a major health insurance company, is seeking Senior Programmer/Analysts and Programmer/Analysts for their Systems and Programming Department. Qualified Senior Programmer/Analyst applicants must have successful project leadership experience on two- to three-person projects of six months duration or longer.

Individuals must have a minimum of four years experience in a business applications systems environment, technical competence in COBOL, CICS, EASYTRIEVE, TSO, OS/JCL, MVSAM or VS1 shop experience is required.

Senior Programmer/Analysts will:

- Perform front-end analysis
- Write user and D.P. specifications
- Perform technical design
- Perform project estimating and scheduling
- Coordinate with multiple users across functional areas
- Write project and operational documentation

Senior Programmer/Analysts will be expected to direct 1 to 2 people or perform the most technically difficult developments. Programmer/Analyst applicants must have a minimum 2 years experience in business applications systems development, and prior experience in COBOL and OS/JCL is required. Knowledge of CICS, VSAM, ADABAS, and large IBM-like mainframes preferred.

Programmer/Analysts will:

- Perform program design and development
- Gather and analyze information for systems development or modification
- Construct, test, and implement systems and prepare systems operation and user documentation

Blue Cross and Blue Shield of Oregon offers an excellent employee benefits package, flex-time work hours, and competitive salary. Principals only, please apply or send resume to:
