(\$1579 - \$2016 Monthly)**

The Oregon Department of Transportation is currently recruiting to establish a list of candidates to fill present and future engineering vacancies throughout Oregon.

ENGINEERING AIDE

performs routine and non-technical manual work in the field, office or laboratory related to the investigation, location, design, construction, maintenance and operation of engineering projects. You must have: knowledge of the fundamentals of algebra and plane geometry, ability to make simple reports and keep accurate records, ability to trace and letter architectural or engineering drawings, and ability to perform physical labor in all kinds of weather.

ENGINEERING TECHNICIAN 1

performs a variety of basic technical tasks in the investigation, location, de-

sign, and construction of projects. You must have equivalent to: an Associate degree in Engineering Technology or eighteen months of subprofessional experience.

ENGINEERING TECHNICIAN 2

makes and revises drawings and working plans for assigned engineering projects, inspects construction projects, constructs manuscripts and planimetric and topographic maps, etc. You must have equivalent to: an Associate degree in Engineering Technology and two years technical experience directly related to engineering.

HIGHWAY ENGINEER 1

is the entrance level into professional Transportation engineering work, involving investigation, location, design, and construction. You must have equivalent to: a Bachelor's degree with major coursework in civil or closely related engineering field.
