Sparrow is the name of many small, common birds. The name comes from an Anglo-Saxon word *spearwa* which it is believed was a general term for all small birds.

When President Theodore Roosevelt took cross-country walks, he made it a point to always walk in a straight line—even if that meant swimming a creek in winter or scaling a steep cliff.

"A man's delight in looking forward to and hoping for some particular satisfaction is a part of the pleasure flowing out of it, enjoyed in advance."
Arthur Schopenhauer
