DATA PROCESSING

DEVELOPMENT CENTER ANALYST

Blue Cross Blue Shield of Oregon, a major health insurance company, is currently accepting applications for a **Development Center Analyst** in the Human Resources Department. The Development Center provides consulting and training for our **Systems Development staff** for mainframe and personal computer programming languages, as well as project management, analysis, design, programming, testing, and debugging tools. The Development Center also does research and development of new technology, tools, and methods for making the systems development process more effective.

Qualified individuals will have a minimum of 2 years experience as a programmer analyst and a degree in computer science, math or statistics. Systems analysis and design, business case analysis, project leadership, and database design are highly desirable, along with technical competence in COBOL, Easytrieve Plus, CICS, Natural, and ISPS. Leadership qualities, including excellent written & oral communication skills, are a must. Experience in developing & presenting training programs is very desirable.
