# "The Cobi Techniques" Offer **Alternatives To Portland Public High School Students**

"It's A New Generation" is the theme of Cora Smith's "The Cobi Techniques" third annual series of fashion shows. You will see high school students as models, strutting their stuff and exuding self-confidence. Jefferson, Benson, Marshall, and Roosevelt High Schools will be giving themselves a pat on the back for successfully completing "The Cobi Techniques" twenty hour program designed to build selfconfidence, self-esteem, and improve attendance and grades.

Included in the show is the Performing Arts. Original songs authored by Cora Smith and music director, Fred Hammack, Director of Music from Jefferson High School will be showcasing talents in the areas of singing and dancing. The Cobi Techniques' focus is to create a marketable outlet and incentive program for youth whose talents would otherwise go unrecognized and undeveloped. Students will unveil their talents at a school assembly with an audience of approximately 1,500 at each school. The schedule for the participating schools is as follows:

> December 9, 1986 - Marshall High School, 10:10 a.m.-11:10 a.m., Address: 3905 S.E.

December 11, 1986 - Benson High School, 10:10 a.m.-10:50 a.m., Address: 546 N.E. 12th. December 12, 1986 - Jefferson High School, 10:10 a.m. 10:45 a.m., Address: 5210 N. Kerby Avenue.

December 12, 1986 - Roosevelt High School, 7:30 p.m.-9:00 p.m., Address: 6941 N.

"The Cobi Techniques" was first implemented in 1984 at Jefferson High School where the principal, Nathan Jones, pondered over ways in which to polish students' character as well as thwart the drop-out, attendance, and tardiness rate. Mr. Jones realized a non-traditional course was needed to act as an exercise for students to uncover their hidden abilities and at the same time build self-confidence.

on a trial basis. Through one-on-one sessions, a group dynamics, stage production projects, grooming, acting and public speaking, attitude changes occurred in the scholastically inclined student as well as the student who had potential to become a drop-out.

Today the course is offered at four high schools. Two high schools offered two sessions to accomodate the demands of the students. In January, 1987, plans are underway to introduce the course to other high schools and several middle

"The Cobi Techniques" will follow-up with the students by providing additional training, referrals and productions in the upcoming months. For more information on how successful The Cobi Techniques have been, contact Harold

#### Low-Income And **Homeless Families** assisted

This winter, Portland area youth, affected by disaster or low-income situations, and local homeless families are the targets of a Red Cross effort to distribute Care Kits and Family Comfort Boxes to those in need. Red Cross is seeking individuals, civic groups, manufacturers and companies to assist in filling these needs through:

- · completing one or more Care Kits and/or Family Boxes
- · donating necessary items in bulk · taking on a quantity of kits/ boxes as a group project

"The need is now as the holidays and winter months approach. As families are without heat and shel-As the home fire season approaches, the request for these items increases dramatically," says Ronnie Meyers, Community Services Specialist, American Red Cross.
