

## Business Network Honors Nicholson Contribution

The Oregon Small Business Development Center Network (OSBDCN) has given its Support Staff Award for March of 1987 to Mary Nicholson, a staff member at Mt. Hood Community College's Small Business Development Center.

The OSBDCN is a system uniting all of the Small Business Development Centers statewide. The centers are resource outposts for existing, beginning and new businesses.

"This award is given each month to recognize the outstanding contributions that individual staff members have made to the SBDC program," said Sandy Cutler, state director, OSBDCN. "All of our support staff are important players on the SBDC team."

Don King, director of MHCC's Small Business Development Center, presented Nicholson with the award. "Mary Nicholson helped launch Mt. Hood Community College's Small Business Development Center three years ago as the original support person. Her self-motivated, proficient work ethic has provided the program with administrative continuity, while training four new directors," King said.

Nicholson's latest projects at the MHCC office involve researching the application of a desk top publishing system and developing a tutorial computer lab for business clients.

Nicholson and the rest of the staff at MHCC's SBDC provide affordable workshops and referrals to help business owners solve problems and implement profitable business strategies. For more information call 667-7658.
