1-800-852-SAFE
1-800-SPA-TIME
1-800-443-PUMP
1-800-722-WATR

We spell help in some very unusual ways.

For instance, the number above that ends in PUMP puts you in touch with all kinds of information on heat pumps. The number that ends in SAFE yields information on outdoor lighting. The number that ends in WATR covers electric water heaters. And the number that ends in WARM is for weatherization.

Fact is, we have a direct line for virtually every one of our services—so we don't waste your time switching you from line to line. To call, simply look us up in your local telephone directory.

There, help is spelled just like you'd expect: "Portland General Electric"

Black History

"It's History Worth Remembering."

James & Ginette DePreist

Black History is in the present and future as well as the past. The futures of many teenagers in our community are being influenced in a very special way every summer by two Portland men, Ray Leary and Tony Hopson who since 1981 have put together a Self Enhancement Program just for teens. These programs not only offer outstanding athletic instruction but also encourage kids to talk about their high school and college majors and most importantly help them grow as persons. Northwest Natural Gas salutes Ray Leary, who has served as the Interim President of the Urban League of Portland, and Tony L. Hopson, an administrator with Portland Public Schools, for initiating a program that participants praise for helping them find present and future direction as individuals.
