How Many Students Drop Out of School Before Graduating?

Do not like school • Learning difficulty/low grades • Pregnancy/
marriage • Economic need/employment • History of failure in school
Pushed out/raised standards could not be met • Burned out/trying too
hard to succeed • Poor relationships with teachers/peers • Poor
home support for education • Lack of supportive relationships •
Language/cultural barriers.

Most teenagers say they dropped out of high school because they did
not like school. Over 25 percent of the females left because they
became pregnant.
