FUR 'The Fashion' WRAP

Fur is an emotional experience. It is pleasure in its Purest Form. And this season, fur has taken a new twist. Bold Bright colors. Dyed Mink, Fox, and Beaver, are making fashion news all over the nation, in colors such as Lipstick Red and Moss Green, Shaffron Yellow, and Deep Purple. These coats range from full length to jacket length. And are one of this season's 'hots' items.

Furs should be bought with the Head not the Heart. Long haired furs are very fragile, and do need special care. If you are a very active person, and are considering a Fox Coat, or a Lynx or Raccoon. You may want to consider your purchase carefully. Quality and Craftsmanship are the key.

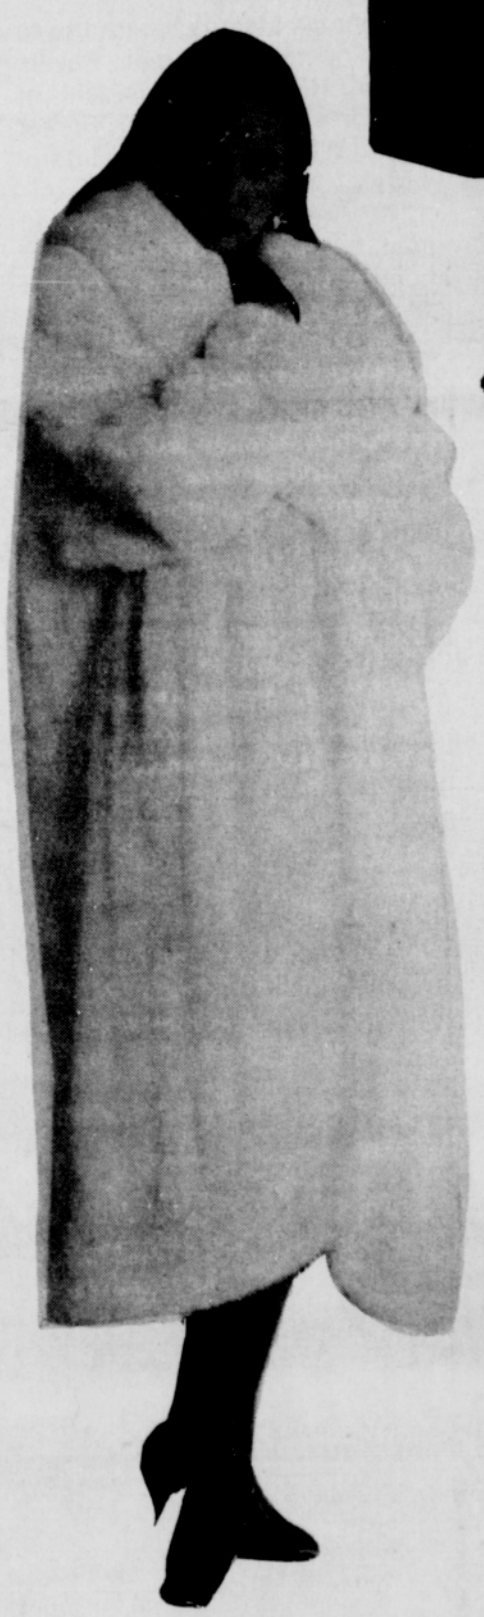

Mink is timeless ... it is not fragile like Fox and Lynx. It's shorter hair enable's this coat to be multi-functional.

What ever fur you purchase will be an exciting addition to your wardrobe. Remember to consider your lifestyle and personal signature when selecting your coat.

If you are full figured, or short. It would be wise to consider the short hair furs. Such as Mink and Beaver to mention a few. Long haired furs tend to be to over powering, for short women. Entirely to much fur for full figure ones. The shorter haired furs such as Mink, give full figure women a slimmer Look. Provided they have a good line and a mid-length. There are exceptions. So it is Best to consult with your local furrier. And wrap up in something bright and wonderful this fall.

Evening dresses are body fitting and very sexy, very low-cut in the front and back. And the length is optional, from very long to thigh high. Ruffles are back. Scarfs are flowing off the shoulders and from around the neck. Backs and Shoulders are bare.

The Simple Black Dress goes poof with lots of style and elegants. Gloves are here to stay for evening wear. The Long or Short glove will be quite fashionable. Hats have gone BIG. Cocktail hats are making a fashion statement this season, with BIG W-I-D-E Brims covered with Rhinestones and satin. Accessories, like 'Icing on the Cake' or 'Jewels in a Crown' make the finishing touches, that transforms any outfit into something dramatic. Make your next evening, a evening to remember. Make the CLASSIC FASHION STATEMENT!

FACE OF BEAUTY

Hide Those Lines Under Eyes!

The Best Way to hide fine lines underneath the eyes is to dab a concealer, lighter than your foundation in the lined area. This will create a soft, youthful LOOK. Concealers are available at your local department store Cosmetic Counter.
