"Candy Girl" and "Cool It Now," hit singles from the teen days of the R&B group, New Edition, reflect the group's more relaxed attitude about life. However, the group says it got "spanked" by the music industry, prompting them to get more serious about their careers. They now vow that their latest album, "Heartbreak," signals that they are "better and stronger than ever before." New Edition also exchanges compliments about Minneapolis producers Jimmy Jam and Terry Lewis, who brought out what the duo calls New Edition's "on-tap" talent to produce "Heartbreak."

The Portland area is one of the greatest places to live in this country, and we all want to keep it that way. An important part of our growing urban area is a strong transit system that gets people around quickly and easily.

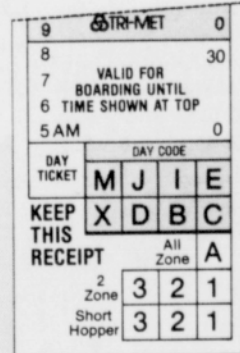

To help you do just that, we've made some improvements that mean increased ease and convenience for Tri-Met customers.

If you haven't been on a bus or MAX in a while, give them a try. You'll find the goin's easier than ever on Tri-Met.

3 There's A New, Easy-To-Read Transfer.

Your transfer is your receipt. Keep it until your trip is over.

Your transfer is good until the time shown at the top. Until that time, you can get on any bus or MAX.

5 A Helpful New Information System On The Downtown Mall.

You can get information quickly and easily from the new color monitors in the Portland Mall shelters.

These new screens have large letters, better contrast and color coding for special services.

6 A Transportation System That Works For You.

New Park & Ride lots in Tualatin and Hillsboro, and new Transit Centers in Beaverton and Tigard, make the goin' even easier. The new lots have covered waiting areas and plenty of free, lighted parking.

Tri-Met is planning more Park & Ride lots and Transit Centers for your convenience.

The new Beaverton Transit Center is the hub of westside bus service and designed to serve future light rail passengers.
