

The Intel Influence

COMMITMENT.

Intel Corporation has an active Small Disadvantaged Business Program interested in expanding our minority vendor base in the local area. If your business is in one of the following areas, Intel can be an attractive and stable customer:

- | | |
|--------------------------------|-----------------------------------|
| Construction | Trade Contractors |
| Telephone equipment & services | Personal computers & software |
| Office supplies & printing | Materials handling equipment |
| Furniture | Lab & safety supplies |
| | Sheet Metal & Polypro fabrication |

For businesses that can provide the highest quality product on time and at a reasonable price, please contact *Bob Menestrina MS CO1-02, Small Business Program Manager, Intel Corporation, 15201 NW Greenbrier Parkway, Beaverton, OR 97006.*

Intel Corporation also offers a range of employment opportunities. We are committed to attracting, recruiting and retaining employees of minority backgrounds. Our positions include:

- | | |
|--------------|-----------|
| Professional | Technical |
| Assembly | Trades |
| Clerical | |

We have full-time and part-time career positions as well as considerable use of temporary agencies.

For specific employment opportunities, please contact *Intel Staffing HF3-05, 5200 NE Elam Young Parkway, Dept. 0519, Hillsboro, OR 97124.*
An EEO employer, actively seeking m/f/v/h candidates.

METRO ELECTRICAL TRAINING TRUST

5600 N.E. 42nd
PORTLAND, OREGON 97218
(503) 287-0756

The labor/management committee has resolved to cooperate in public service efforts whose objective shall be to enhance the public image of I.B.E.W./N.E.C.A. and publicize the quality product we market.

Facts and figures define the I.B.E.W. electrician as the best trained, most productive electrical worker in the nation today. Our joint objective is to make use of that skill and promote that talent.

Since the first meeting between Jim Brooks of the Urban League and the Metro Electrical Apprenticeship Committee in 1964, many Blacks, women and other minorities have been recruited and employed in the electrical construction industry. Because of this cooperation, Charlye Molden and Donna Hammond were two of the first Black women in the nation to be trained as journeymen electricians.
