We give you time
to work smarter.

Ray Jones had the idea. Now he has the product. But running a small business takes time and hard work... and who has time? Ray Jones does. Because he's also smart: he called U S WEST Communications.

Ray's expanding into a new market with a U S WEST Market Expansion Line. Now he has a local number in a neighboring market, but calls are forwarded to his main office. He gets new customers without investing in a new location, and they get a local hero—they feel like he's right next door.

A few minutes ago, Ray's biggest customer called—on his own line. After discussing business, he asked why Ray is so much more responsive than his competitors. Ray just smiled to himself and thought, "For one thing, I have business lines dedicated to sales, service, and key customers—like you."

Right now, he's busy—busy getting better. Of course, Ray's customers have been calling all day on his Sales Line. At 3:00, he'll go through their orders and FAX confirmations to them on his dedicated FAX Line. Then he'll FAX the orders to his suppliers. He knows he'll be done by 4:30. Like he is every day.

So you see, Ray Jones is really working very hard. By working very smart. You can, too. Just check out our free booklet, "Big Ideas For Small Business." To get your copy, call U S WEST Communications at 1-800-792-0800 today.

You can keep up with the Joneses. Just call U S WEST.
