

EXPOSURE TO DANGEROUS CHEMICALS IS CRIPPLING A THIRD OF YOUR EMPLOYEES.

There are some hazardous chemicals no employee should have to handle: Amphetamines. Crack. Cocaine. The list goes on and on. Yet almost one third of Oregon's work force uses drugs. Resulting in absenteeism, theft, increased accidents and poor job performance.

To protect your company from drug abuse, establish a drug control program. Call the Oregon Prevention Resource Center at 1-800-822-OPRC. And learn how to effectively dispose of your problem.

DRUGS DON'T WORK
